

VICTORY FOR REPUBLICANS IN THE CITY AND TOWNSHIP

Democrats Shut Out Everywhere Except In the Fifth Ward Where They Elected an Assessor by Three Plurality.

HOT CONTESTS FOR COUNCILMANIC HONORS

But Henry Bullock Won In the First Ward and Leroy Orr In the Fourth, Each Having Many Votes to Spare—The Vote In General a Light One—Figures For Each Precinct In the City and Township and Gossip About the Election,

The township and municipal elections have come and gone, and once more the Republican ticket has been elected in its entirety, with the single exception of an assessor in the Fifth ward. The vote was not large, but what was lacking in that regard was more than made up in the interest taken in every section of the city.

Most of the interest was centered in the contests for council, and in three of the five wards a hard fight was put up by Democrats and Prohibitionists.

Bullock and McHenry, Republican and Democrat, respectively, were pitted against each other in the First, and it was generally conceded that the former had by far the harder fight on his hands. McHenry, although a Democrat, has a great many friends and was considered a hard

Miles was his opponent, and he had been selected by the Prohibitionists. The count in this ward was not completed until after 11 o'clock, and from the time the box was opened and the first ticket counted, it was anyone's victory. Toward the finish Thomas gained steadily and when the judges had finished he was 29 ahead.

The result of the spring election was most gratifying to the Republicans of the city and they have the assurance that for another year at least the affairs in this municipality will be in safe hands.

For assessors the vote was as follows:

In the Second and Third wards it was a foregone conclusion that Barlow and Horwell would win out. With the Fourth and Fifth it was different.

Tom Starkey, of the Fourth, candidate of the Democracy, had been out for more than three weeks, and when the polls opened in the morning he had a small army lined up at the two precincts. There was a sprinkling of Republicans among them, too, which was no credit to either themselves nor their party. The way Orr trimmed the Democrats and Mugwumps was a caution. This fight demonstrated the fact that there are a host of good Republicans in the ward who can be relied upon in every emergency, and the way they turned out yesterday was enough to put every bolter in the city to shame. When the count was finished Orr had 175 votes to the good.

In the lower precinct of this ward some excitement was occasioned by an accusation on the part of one of the Republican judges, who claimed that one of the candidates on the Prohibition ticket had voted at both of the late primary elections. The commotion quickly subsided, however, and nothing occurred to disturb the election during the balance of the day.

In the Fifth a strenuous effort was made to defeat W. B. Thomas, Republican candidate for council. James

For council the following Independent were elected: Walter Scovill

Geo. J. Koch, Joseph Bretz, H. G. Dow, F. Z. Kinnear, T. F. Bollnogle.

LEETONIA

The Result Somewhat Mixed, Both Parties Electing Some of Their Candidates.

Leetonia, April 2.—(Special.)—The result was mixed. The Republicans elected two councilmen, Scattergood and Selfridge, and the Democrats one, Raugh. On the board of education two Democrats were elected, Craven and Sigle. For water works trustee Dalzell and cemetery trustee Rummell, both Democrats, were elected. For township trustee, Crowthers, D.; treasurer, Forney, R.; justice, Sheldon, D.; constable, Wells, R. and assessor, Stiver, D., were elected.

COLUMBIANA.

The Temperance Question Played an Important Part in Deciding the Election.

Columbiana, April 2.—(Special.)—On the township ticket the following were elected: Justice, Henry Gleckner, D.; trustee, Chamberlain, D.; treasurer, Holloway, R.; assessor, Harold, D.; constables, Haag and Roller, D.

In the town the temperance question was the issue. Two of the three elected were Republicans and anti-saloonmen. The successful ones were Jacob Detwiler, R.; Frank Grove, R., and Dayton Fisher, D.

EAST PALESTINE

A Complete Republican Victory for Town And Township Ticket.

East Palestine, April 2.—(Special.)—The election resulted in a complete Republican victory in town and township. For water works trustee, Early, R., got 305; Hartford, D., 159. Council, Meek, R., 341; Smith, R., 327; Rederus, R., 343; Moore, D., 133; Clark, D., 137; Fasnaught, D., 111.

KILNMEN STRIKE

CRESCENT POTTERY MEN AT TRENTON ASK AN ADVANCE.

Both Sides Firm And 700 Men Will Be Idle if Strike Continues.

Trenton, N. J., April 2.—(Special.)

—Two hundred and fifty kilnmen at the Crescent pottery struck this morning, after demanding a 10 per cent increase for placing china. They are paid for this more difficult and particular work only the same rate as for placing regular ware.

If the strike holds out three days 700 hands will be affected.

The strikers are firm and the manufacturers do not appear inclined to yield, so that a prolonged strike would not be surprising.

AG HE WILL BE GOOD.

HAS TAKEN THE OATH OF ALLEGIANCE TO UNCLE SAM.

The Announcement Was Made By Secretary of War Root Today.

Washington, April 2.—(Special.)—Secretary Root announces that Aguinaldo has taken the oath of allegiance to the United States.

Certificate of Election.

City Clerk Hanley is today engaged in sending out the bonds of the various assessors in Liverpool township. When these are properly filled out they will be filed. The assessors will meet at Lisbon next Monday to receive their supplies and instructions. The clerk will also send certificates of the election of the several successful candidates.

AMONG THE POTTERIES.

Harry Farmer left yesterday afternoon for Salem, where he has accepted a position as packer in the pottery.

Twenty-eight baskets of ware were this morning shipped to Allegheny on the market car attached to the early east bound train.

BROWN'S EXPLOIT PUTS HIM IN JAIL

A Troublesome Colored Man Attempts Burglary, Is Caught and Confesses.

TRIES TO STRANGLE A WOMAN

Seizes Mrs. Dr. Williams By the Throat And Struggles With Her. The Dropping of His Hat Leads to His Arrest—Held for Court.

Dave Brown was at his old tricks again last night, and this time it is probable he will not get off so easy as formerly.

At about 2 o'clock this morning Dave went to the residence of Mr. Dr. Williams on fifth street and entered the house by means of a kitchen window. The family were upstairs in bed and Brown had no difficulty in roaming about the lower portion of the house without attracting the attention of the family.

He went to the rear of the house and opened two doors, one at the side and one immediately in the rear. This was doubtless done in order to make his exit safe and rapid in case of discovery.

Brown then proceeded upstairs and had just entered Mrs. Williams' room when she awoke. She saw that there was someone in the room, and inquired who was there. The colored boy put his hands over his face and replied that it was Willie, and he was sick.

Mrs. Williams at once arose and went to the person, believing him to be her son. When she reached his side she was seized by the throat and almost strangled to death. The pair struggled to the landing at the top of the stairs, and in her efforts to tear herself loose from the grasp of the negro, Mrs. Williams tore his cap from his head and it fell on the floor and later was found by the police. Brown soon released the woman and fled down the stairs.

Meanwhile the other members of the household had been aroused, and Raymond Williams, another son, made his way across the street and gave the alarm at the residence of Colonel W. C. Watson. He also notified the police. Officers Gill and Aufderheide and Colonel Watson arrived on the scene about the same time and immediately began an investigation.

Mrs. Williams, who had suffered greatly from the shock of her thrilling experience, was made comfortable by Dr. Toot, and Officer Dawson arrived soon afterward to assist the other officers.

It was not long until the cap was found and the officers were positive and all agreed that it was the property of Dave Brown.

The three officers, accompanied by Raymond Williams, repined to the home of the Browns in West End, and while the officers secreted themselves where they could see what was going on the Williams boy knocked at the door and informed the inmates that Dave was wanted to shine a rig somewhere. Without suspecting anything the door was opened and the officers entered. Mrs. Brown was considerably agitated and at once inquired whose house Dave had broken into this time.

When the party was ready to start for the jail Dave couldn't find his cap, but the police said they would fix that. Withing a very short time after the affair occurred the colored boy was landed in prison.

On at least three other occasions Brown has been connected with identically the same sort of affairs, and it is thought in order to not only learn him a much needed lesson, but to insure the safety and peace of the community, Dave will be given a salty dose.

At 6:30 o'clock last evening, just as the polls were closed at the first precinct of the Fourth ward, Brown and Joseph Cannon had a fight. Cannon was given much the worst of it, and when the charge was made against Dave last night that of disor

KILNMEN STRIKE

CRESCENT POTTERY MEN AT TRENTON ASK AN ADVANCE.

Both Sides Firm And 700 Men Will Be Idle if Strike Continues.

Trenton, N. J., April 2.—(Special.)—Two hundred and fifty kilnmen at the Crescent pottery struck this morning, after demanding a 10 per cent increase for placing china. They are paid for this more difficult and particular work only the same rate as for placing regular ware.

If the strike holds out three days 700 hands will be affected.

The strikers are firm and the manufacturers do not appear inclined to yield, so that a prolonged strike would not be surprising.

BROWN'S EXPLOIT PUTS HIM IN JAIL

A Troublesome Colored Man Attempts Burglary, Is Caught and Confesses.

TRIES TO STRANGLE A WOMAN

Seizes Mrs. Dr. Williams By the Throat And Struggles With Her. The Dropping of His Hat Leads to His Arrest—Held for Court.

Dave Brown was at his old tricks again last night, and this time it is probable he will not get off so easy as formerly.

At about 2 o'clock this morning Dave went to the residence of Mr. Dr. Williams on fifth street and entered the house by means of a kitchen window. The family were upstairs in bed and Brown had no difficulty in roaming about the lower portion of the house without attracting the attention of the family.

He went to the rear of the house and opened two doors, one at the side and one immediately in the rear. This was doubtless done in order to make his exit safe and rapid in case of discovery.

Brown then proceeded upstairs and had just entered Mrs. Williams' room when she awoke. She saw that there was someone in the room, and inquired who was there. The colored boy put his hands over his face and replied that it was Willie, and he was sick.

Mrs. Williams at once arose and went to the person, believing him to be her son. When she reached his side she was seized by the throat and almost strangled to death. The pair struggled to the landing at the top of the stairs, and in her efforts to tear herself loose from the grasp of the negro, Mrs. Williams tore his cap from his head and it fell on the floor and later was found by the police. Brown soon released the woman and fled down the stairs.

Meanwhile the other members of the household had been aroused, and Raymond Williams, another son, made his way across the street and gave the alarm at the residence of Colonel W. C. Watson. He also notified the police. Officers Gill and Auderhelde and Colonel Watson arrived on the scene about the same time and immediately began an investigation.

Mrs. Williams, who had suffered greatly from the shock of her thrilling experience, was made comfortable by Dr. Toot, and Officer Dawson arrived soon afterward to assist the other officers.

It was not long until the cap was found and the officers were positive and all agreed that it was the property of Dave Brown.

The three officers, accompanied by Raymond Williams, repaired to the home of the Browns in West End, and while the officers secreted themselves where they could see what was going on the Williams boy knocked at the door and informed the inmates that Dave was wanted to shine a rig somewhere. Without suspecting anything the door was opened and the officers entered. Mrs. Brown was considerably agitated and at once inquired whose house Dave had broken into this time.

When the party was ready to start for the jail Dave couldn't find his cap, but the police said they would fix that. Withing a very short time after the affair occurred the colored boy was landed in prison.

On at least three other occasions Brown has been connected with identically the same sort of affairs, and it is thought in order to not only learn him a much needed lesson, but to insure the safety and peace of the community, Dave will be given a salty dose.

At 6:30 o'clock last evening, just as the polls were closed at the first precinct of the Fourth ward, Brown and Joseph Cannon had a fight. Cannon was given much the worst of it, and when the charge was made against Dave last night that of disor-

MADE COO COO EYES

The Charge Against East Liverpool Women Who Were Arrested at Beaver Falls.

Two young women from East Liverpool, O., who registered at one of the hotels in town as Mrs. Petrie and May Miller, were picked up on the street in Beaver Falls, by Chief of Police Strayer, who, after much pleading on the part of the prisoners, allowed them to be released upon promising to leave town at once. The women had been in town for a day or two and had been making "goo goo eyes" at some of the boys in town who part their hair in the middle, until the chief feared that he would lose some of the habitual mashers who amuse themselves on the avenue.

The women were very indignant when placed under arrest and put up a good strong argument, but it would not go, says the Beaver Falls Tribune. They then showed that they had return tickets to East Liverpool and sufficient money to pay car fare to Rochester, and upon promising to leave town were released.

HE IS GONE.

Sharon Man Has Left And No Trace Can Be Found.

Charles Sumbower, general manager of the Henry dry goods store, the largest in Sharon, mysteriously disappeared from his home in that city on March 25, and not a word of his whereabouts is obtainable.

Sumbower is a handsome specimen of manhood and a most successful dry goods man. He was seen on the streets about 10 on the morning of the 15th for the last time. His disappearance is complete and although every effort has been made to locate him, no one has yet succeeded in finding the slightest trace.

Yesterday a private detective arrived in Sharon and began a search for Sumbower. The stranger was extremely secretive and no one knows who he is. J. S. Henry, Jr., of the store where he was employed, went to Pittsburg today in an effort to locate the missing man.

Sumbower left everything in his room in good shape. His wages are yet due him at the latter place.

ROBBED ON A BOAT.

A Beaver Man Alleges That \$1,665 Was Taken From Him.

Parkersburg, W. Va., April 2.—L. B. Engle of Beaver Pa., reported to the police here that he had been assaulted and robbed of \$1,665 by three roustabouts on the steamer Queen City about three miles below here. He stated that he got on the boat at Gallipolis to go to Pittsburg. About 8 o'clock yesterday morning three men set upon him and robbed him of all his money, one of the parties knocking him down and the others slitting his pockets with a knife. His coat was taken off and he was told to get out.

He applied, he said, to the captain, but received no redress. An officer was called, but the men whom Engle claimed had robbed him could not be found. Engle's face was scarred and his pockets showed where they had been cut open by the robbers.

Large Dealings in Them in the Stock Market Monday—Some of Features of Market.

New York, April 2.—The prodigious volume of dealings in the United States Steel securities Monday brought the aggregate sales of all stocks on the exchange within measurable distance of the largest dealings on record for a single day. The largest single day's transactions were those on Jan. 7 of this year, when the aggregate sales reached 2,127,503 shares. The total for Monday was 1,858,800 shares, which has only been exceeded by the record day. The large part played by the United States Steel stocks even in such a broad and active market as that of Monday is indicated by the sales of the common and preferred, those of United States Steel amounting to 216,100 and those of United States Steel preferred 168,800 shares, or for both 384,900 shares, which was 23 per cent of the total dealings. It is very evident that the activity of the United States Steel corporation stocks on the exchange with their bulky capitalization of 11,000,000 shares, according to Monday's amended certificate of incorporation, is to constitute a new era in the volume of dealings for individual stocks. Single commission houses Monday did sufficient business in these stocks alone to realize a handsome fortune simply from the brokerage commissions on their operations. One house was credited with selling upwards of 100,000 shares of United States Steel preferred and various other houses between 50,000 and 100,000 shares of either one or the other stocks. The resources required for the support of a stock in which the dealings are on such a scale, that was Monday the confident purchase of all the stock that may be offered at current quotations, staggers the imagination. The offerings which were hurled on the market fairly staggered the price for a period, but they were rallied and moved upward through the avalanche, the common rising 2½ and closing at the top, while the preferred rose an extreme 1¼ and closed within ¼ of the top. Many of the opening advances were about wiped out before the final outburst, which carried prices to the highest of the day. A final realization movement carried the most active stocks down again from 1 to 2 points and made the closing very irregular. Rock Island was a feature all day in spite of denials of reported consolidation with the Atchison systems and of other rumors set afloat to account for the movement in the stock. The extreme rise in the stock market was 4½ and its net gain 4 points. St. Paul was strong throughout and became quite buoyant, rising 3½ but falling back 1½ points on the reaction. Union Pacific was very actively dealt in at an extreme rise of 2½ and Manhattan was advanced as much on large dealings. All of the steel stocks were quite volatile, both those included in the merger and the independent stocks. Republic Steel stocks rose an extreme 6¼ for preferred, Sloss, Sheffield preferred 4¾, and Tennessee coal 1¾. Quite a number of dormant stocks were advanced sharply, Pullman rising 6¾. Burlington was quite severely depressed by profit taking, falling at one time 3¼ below Saturday's closing prices, but ending with a net loss of only 1½. Lackawanna, after an early advance, fell 3¾ under Saturday. The tone of the money market was distinctly harder, but not the slightest effect was produced on the speculation.

The bond market was not so active relatively as the stock market, but business was large and the movement of prices irregular. Total sales, par value, \$6,035,000.

LOSS OF TRADE IN CHINA

REPORTS FROM CONSULS ON THE STATE OF COMMERCE.

What the Boxer War Cost Us—Immense Shrinkage in Orders for American Goods.

The department of state has received from China two interesting reports, one from United States Consul Fowler at Chefu on the effect of the Boxer trouble on United States trade, and one from Consul Ragsdale in regard to the export trade from Tientsin. Consul Fowler says:

"The uprising in north China broke out, as is well known, in the month of June, 1900; the press of the entire world has since that time been full of accounts of the events that transpired in this section. They have treated nearly every phase of this subject, and, while we know how our countrymen suffered in north China, I have not seen any statistics published showing the loss involved to merchants in the United States. To show this fairly, it will be necessary to adhere to the Chinese values, where given, instead of the gold values, which are not the same for the periods under review, and I am compelled to include the months of April and May (which were unusually prosperous), as the returns are published by quarters and do not show the trade by months."

Statistics are given showing the enormous increase in importation of American drills, jeans, sheetings, flour and kerosene, prior to the 1st of July. The consul remarks that after June 15 the imports ceased, commercial transactions being absolutely nil. He reports the following decrease at Chefu for the next quarter, ended Sept. 30, 1900: Drills, decreased 43,096 pieces; jeans, 2,560 pieces; sheetings, 112,015 pieces; flour, 139,050 tals, and kerosene, 852,100 gallons. The report says:

"Of course all other lines fell off likewise, and yet Chefu and the interior saw no armed hordes, no military movements and, as compared with the immediate northern ports, was peaceful. As a matter of fact, Chefu was the base for communication with the allies and the world, while Shanghai was comparatively quiet, owing entirely to the friendly stand taken by the governor, Yuan Shi Kai. Yet there were more riots and tumult in my district than ever were known before, and the various American mission losses will probably total \$150,000 gold.

"The effects of the Boxer movement were felt much earlier and more seriously in Tientsin than in Chefu. During the month of June Tientsin was practically closed to the world, yet it is odd to notice that oil showed a gain, and especially when it is known that the Boxers boycotted that commodity first of all things foreign. I know of ships loaded with Oregon lumber that reached Taku and were unable to land their cargoes, thus entailing an enormous loss upon the American lumber trade. One American firm paid through this office over \$5,000 gold on demurrages alone on this account, besides losing the sale of the lumber destined for Tientsin.

"This is almost annihilation and at what is usually the busiest time of the year for our trade. The combined decrease at the three ports of Chefu, Tientsin and Newchwang during the quarter ended Sept. 30, 1900, was as follows: Drills decreased 350,583 pieces, jeans 19,590 pieces, sheetings 757,630 pieces, flour 139,050 tals and kerosene oil 2,053,100 gallons.

"This gives a good idea of what a mob in China can do in the way of interfering with trade. The greatest loss is, of course, in cotton piece goods, and this cessation of imports must have been most keenly felt in the southern states. Probably no country in the world suffered as much as did the United States, for the scene of

strife covered practically our field of trade.

"The losses to the cotton trade alone I estimate at over \$3,000,000. For the five months of 1900 before the outbreak our trade had increased (net) \$684,316 over that for the five months of 1899. For the five months from June to October there was a net loss of \$2,865,043.

"The treasury statistics, it should be remembered, do not embrace all of our trade with China, as large quantities of merchandise are sent into China from the United States via Japan, Hongkong, London, etc."

Consul Ragsdale says:

"The export returns give striking evidences how Tientsin and northern China have suffered in consequence of the uprising. The enormous discrepancies between the figures for the present and for last year tell a tale of loss to the producer, as well as to the merchant, that is startling. Nor is the outlook for the year 1901 favorable for large shipments. The country north of Tientsin, where the principal articles of export are produced, is now overrun with ex-Boxers and ex-soldiers who have turned bandits, and it will be exceedingly difficult for merchants to get goods out of or into the interior. Outside of supplies imported for the armies, the same ratio of loss appears as given in the export returns. The cotton and woolen industries have suffered heavily.

"The supplies furnished the United States troops have attracted the notice and envy of all other nationalities, including the merchant as well as the soldier, an advertisement that could not well have been procured in any other manner."

A CULINARY GENIUS.

Cooked Dinner in His Home While at Business in His Office.

The ordinary man is nowhere more out of place than in the kitchen. All rules have their exceptions, however, and a correspondent sends a story of a man who might have led armies perhaps, but was certainly equal to culinary emergencies.

In the absence of his wife and family it became necessary, as he thought, for him to cook his own dinner, and in view of the fact that he was a man of business his presence was also needed down town at his office.

Now, the same body cannot be in two places at once, and this well known consideration would have settled the question for an average man. He would have either spent his forenoon in the kitchen or gone to his office and lunched out. This, however, was a man to whom physical laws do not courtesy even as custom to great kings. The case stood thus:

He was to have a boiled dinner and would have it done to a turn, piping hot and ready to serve at his home coming. The meat, turnips and beets, therefore, which require a long time, he put on before leaving the house. The potatoes and cabbage, needing less time for cooking, were put on the cover of the pot.

Then he dropped a string through a hole in the edge of the cover, ran it through a loop suspended from the ceiling and thence down to the sink. In the sink hole he firmly stuck a candle, to which, two inches below the top, he tied the string.

Last of all he lighted the candle and went to his business. In two hours, or about half an hour before he was to return, when it was time for the vegetables on the cover to go to their appointed place, the slowly descending flame burned the string, which released the otherwise unsupported edge of the cover, which dropped its burden into the pot and fell back where it belonged.

When the genius reached home, his dinner was ready.—Youth's Companion.

Probably no country in the world suffered as much as did the United States, for the scene of

strife covered practically our field of trade.

"The losses to the cotton trade alone I estimate at over \$3,000,000. For the five months of 1900 before the outbreak our trade had increased (net) \$684,316 over that for the five months of 1899. For the five months from June to October there was a net loss of \$2,865,043."

"The treasury statistics, it should be remembered, do not embrace all of our trade with China, as large quantities of merchandise are sent into China from the United States via Japan, Hongkong, London, etc."

Consul Ragsdale says: "The export returns give striking evidences how Tientsin and northern China have suffered in consequence of the uprising. The enormous discrepancies between the figures for the present and for last year tell a tale of loss to the producer, as well as to the merchant, that is startling. Nor is the outlook for the year 1901 favorable for large shipments. The country north of Tientsin, where the principal articles of export are produced, is now overrun with ex-Boxers and ex-soldiers who have turned bandits, and it will be exceedingly difficult for merchants to get goods out of or into the interior. Outside of supplies imported for the armies, the same ratio of loss appears as given in the export returns. The cotton and woolen industries have suffered heavily."

"The supplies furnished the United States troops have attracted the notice and envy of all other nationalities, including the merchant as well as the soldier, an advertisement that could not well have been procured in any other manner."

A CULINARY GENIUS.

Cooked Dinner in His Home While at Business in His Office.

The ordinary man is nowhere more out of place than in the kitchen. All rules have their exceptions, however, and a correspondent sends a story of a man who might have led armies perhaps, but was certainly equal to culinary emergencies.

In the absence of his wife and family it became necessary, as he thought, for him to cook his own dinner and in view of the fact that he was a man of business his presence was also needed down town at his office.

Now, the same body cannot be in two places at once, and this well known consideration would have settled the question for an average man. He would have either spent his forenoon in the kitchen or gone to his office and lunched out. This, however, was a man to whom physical laws do not count even as custom to great kings. The case stood thus:

He was to have a boiled dinner and would have it done to a turn, piping hot and ready to serve at his home coming. The meat, turnips and beets, therefore, which require a longer time, he put on before leaving the house. The potatoes and cabbage, needing less time for cooking, were put on the cover of the pot.

Then he dropped a string through a hole in the edge of the cover, ran it through a loop suspended from the ceiling and thence down to the sink. In the sink hole he firmly stuck a candle, to which, two inches below the top, he tied the string.

Last of all he lighted the candle and went to his business. In two hours, or about half an hour before he was to return, when it was time for the vegetables on the cover to go to their appointed place, the slowly descending flame burned the string, which released the otherwise unsupported edge of the cover, which dropped its burden into the pot and fell back where it belonged.

When the genius reached home, his dinner was ready.—Youth's Companion.

CAPITAL IS LARGER

The Charter of the New United States Steel Corporation Is Amended.

STOCK IS MADE \$1,100,000,00

Announcement of Directors and Officers—Charles M. Schwab Both Director and President—Gary Chairman of Board—Others Named.

Trenton, N. J., April 2.—The United States steel corporation filed with the secretary of state articles amending its charter and increasing its capital stock to \$1,100,000,000. The state fee for the filing of the papers was \$220,000. The original articles filed some time ago were amended in one particular. This amendment was made for the purpose of taking advantage of an act passed by the recent legislature. Originally the corporation could not mortgage or pledge its real property or any of the stock of any other company except by the affirmative vote of the owners of the two-thirds of the capital stock. Under the amended charter it is necessary to have only the affirmative vote of two-thirds of the stock represented in person or by proxy at any meeting of the corporation. The reason for the change is the fear that the stock will become so scattered that it would be impossible to get two-thirds of the entire stock represented at a meeting.

New York, April 2.—Charles J. Steele gave out a statement last night in which he said the directors of the United States Steel corporation had not been elected yet, but would be in a day or two. The statement follows:

"In accordance with their circular of March 2, 1901, which provided, among other things, that the entire plan of organization and management should be determined by Messrs. J. P. Morgan & Co., they now announce that the management and organization of the United States Steel corporation will be constituted as follows:

"Directors, J. Pierpont Morgan, John D. Rockefeller, Francis H. Peabody, Henry H. Rogers, Charles M. Schwab, Elbert H. Gary, Robert Bacon, Charles Steele, Marshall Field, Norman B. Ream, P. A. B. Widener, William H. Moore, James H. Reed, Henry C. Frick, Daniel G. Reid, E. C. Converse, Percival Roberts, John D. Rockefeller, Jr., Alfred Clifford, William E. Dodge, Nathaniel Thayer, William Edenborn, Abram S. Hewitt and Clement A. Griscom.

"President, Charles M. Schwab; treasurer, Arthur F. Lake; secretary, Richard Trimble; executive committee, E. H. Gary, chairman; Daniel G. Reid, William Edenborn, E. C. Converse, Percival Roberts and Charles Steele; finance committee, Robert Bacon, chairman; Henry H. Rogers, Norman B. Ream and P. A. B. Widener.

Increase in Wages

Lancaster, Pa., April 2.—The Susquehanna Iron and Steel company posted notices in its mills that an advance of 25 cents a ton will be made to puddlers on April 15 and a proportionate increase to the other employees. The increase is voluntary.

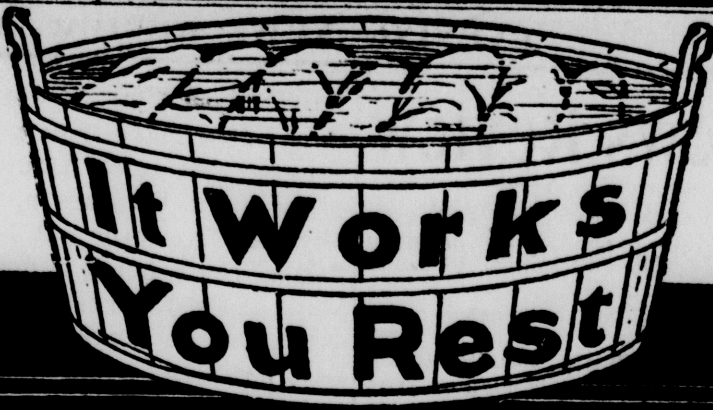

The White Man's Burden

can be named in the single word—*dyspepsia*. It is the one disease, which more than any other, affects the American people. It is common to all classes and all conditions. It makes life miserable. It mars family happiness. It interferes with business and pleasure alike, and it discounts a man's usefulness just as much as it discounts his happiness.

There's a remedy for dyspepsia. Dr. Pierce's Golden Medical Discovery has lifted this burden from the bodies of hundreds of thousands. It cures ninety-eight out of every hundred who give it a fair and faithful trial.

"I used ten bottles of Dr. Pierce's Golden Medical Discovery and several vials of his 'Pleasant Pellets' a year ago this spring, and have had no trouble with indigestion since," writes Mr. W. T. Thompson, of Townsend, Broadwater Co., Montana. "Words fail to tell how thankful I am for the relief, as I had suffered so much and it seemed that the doctors could do me no good. I got down in weight to 125 pounds, and was not able to work at all. Now I weigh nearly 160 and can do a day's work on the farm. I have recommended your medicine to several, and shall always have a good word to say for Dr. Pierce and his medicines."

Free. Dr. Pierce's Medical Adviser is sent free on receipt of stamps to pay expense of mailing only. It contains 1008 pages and over 700 illustrations. Send 21 one-cent stamps for the book in paper covers, or 31 stamps for cloth binding to Dr. R. V. Pierce, Buffalo, N. Y.

THE KAYLOR MEETINGS.

New Members Being Added Daily to the U. P. Church By the Evangelist's Labors.

The meetings in the United Presbyterian church continue this week with increased interest. New members are being added to the church every day. The meeting last night was the largest for Monday evening, yet held. While the demands of the world's business kept many away, a well filled church of eager hearers listened to an earnest address on the divine power.

The speaker, presenting the purpose for which the exceeding great and precious promises were given, enforced the thought that they must be believed and trusted in or they will be of no avail to those to whom they come. God has provided all things that man needs for his complete salvation, but man must do his part in order to enjoy the blessings. An earnest appeal was then made to do that which would bring the soul into the possession of these blessings.

Several stood up to indicate their desire to live the Christian life, and the service was concluded in the lecture room with the inquirers. Services continue during the week at 2:30 and 8 p. m. There will be a sunrise meeting on Easter morning in the audience room of the church, conducted by Mr. Kaylor.

Don't wait for a purchaser for your house or lot to come around. Put a "for sale" notice in the News Review and a dozen will come.

SUNDAY OBSERVANCE

Over 1,000,000 Want Gates Closed at Buffalo—Government Exhibit to Be Shut.

Buffalo, April 2.—A mass meeting attended by about 1,000 persons was held at the Delaware Avenue Baptist church, at which resolutions were adopted protesting against the opening of the Pan-American exposition on Sunday. Rev. J. H. Hathaway, of New York, general secretary of the American Sabbath union, and others spoke. Dr. Hathaway called attention to a mass of signed petitions, containing, he said, over 1,000,000 signatures, asking that the gates be closed on the Sabbath. He also read a letter from Secretary Cortelyou in reply to one Hathaway had written President McKinley on the subject. It enclosed an abstract from a letter from Hon. J. H. Brigham, chairman of the government board, reading as follows:

"It has been the invariable rule of the government board not to open the government building on Sundays. It will be entirely safe to inform persons interested that this rule will not be departed from at the Pan-American exposition."

HOLLIDAY CLEARED

Civil Service Commission Decided His Transfer of Boggs Was For Inefficiency.

Washington, April 2.—The civil service commission dismissed the charges against Postmaster Holliday, of Pittsburgh, of removing J. D. Boggs from superintendent of the East Liberty station of the main office, in Pittsburgh, for alleged failure to sign a petition remonstrating against what is known as the "ripper bill" while that measure was before the Pennsylvania legislature. The commission sent an agent to Pittsburgh to investigate the charges and on his recommendation they are officially declared to be without foundation. Boggs' removal, it is stated, was contemplated by the previous postmaster and had been under consideration for a long while.

The testimony of the witnesses did not show that his failure to sign this petition had anything to do with his transfer. On the contrary, it is shown that the transfer was made on account of his inefficiency or incompetency as a superintendent. The charges and the investigation do not effect the integrity of Mr. Boggs or his ability to perform less responsible duty. The vacancy in the position of superintendent at East Liberty was filled by the promotion of George S. Gallupe, Jr.

To Reward Musician Titus.

Washington, April 2.—The president appointed Calvin T. Titus to be a cadet-at-large at the United States military academy at West Point. Titus was the first soldier to scale the wall at Pekin. Adjutant General Corbin cabled General MacArthur at Manila to send young Titus home on the first available transport in order that he may take the entrance examination to the academy.

James I. Blakeslee Dead.

ELECTIONS IN MICHIGAN.

Republican Re-elected Supreme Court Justice—Some Other Results.

Detroit, Mich., April 2.—Robert M. Montgomery, of Grand Rapids, Republican, was re-elected justice of the supreme court by about 40,000 majority, and Frank W. Fletcher, of Alpena, and Henry W. Carey, of Manistee, Republican candidates for regents of the State university, have also been elected by a majority almost as large. The vote cast was light, excepting in those cities where there was a fight on some local issue. There were two constitutional amendments voted on, both of which were defeated. One fixed the compensation of state legislators at \$1,000 per term and mileage, instead of \$3 per day when the legislature is in session, as at present, and the other provided for an increase in the salary of circuit judge in Bay county. The Democrats made a marked gain in Jackson, where their entire city ticket was elected. The city went Republican last year.

In Owosso, S. D. Emery, Prohibitionist, was elected mayor, overcoming a Republican majority last year of 650. He was the only member of that ticket, however, who was successful.

In Detroit, John B. Whelan, Republican, was re-elected police justice, the only municipal officer voted for, by 4,285 majority. Judge Montgomery carried Detroit by over 2,500 majority. Of the 17 school inspectors elected, 11 were Republicans and 6 Democrats.

Women's Missionary Society Met.

New York, April 2.—The fifteenth annual meeting of the Woman's Presbyterian Home Missionary society was held here. The Presbyterian society covers the territory embraced within the New York presbytery and turns over the money which it collects to the woman's home mission board. The total amount collected during the year ending March 31 was \$18,397. The work is largely among colored people and Indians, but special classes of whites are also looked after, such as Mormons. Schools are maintained in Alaska and in Porto Rico.

Sustained Compulsory Vaccination.

Philadelphia, April 2.—The supreme court dismissed the appeal of Charles J. Field, from the decision of the common pleas court of Philadelphia county, which had refused to order Martha L. Robinson, principal of the Keystone grammar school of Philadelphia, to admit the child of Mr. Field as a pupil in the school, the refusal to admit her having been based on the ground that she had not been vaccinated. The court decided that the compulsory vaccination law of 1895 had not been shown to be unconstitutional, and that school directors had full authority to exercise discretion regarding the admission of unvaccinated pupils.

April 1st Without Yellow Fever.

Havana, April 2.—For the first time in the history of Havana, the month of April begins without a single case of yellow fever in the city. Major W. C. Gorgas, chief sanitary officer, is confident that, with the sanitary measures now being enforced and the valuable information gained during the recent investigations of the yellow fever commission, there will be but few cases the coming season.

To Crusade Against Polygamy.

New York, April 2.—The international council of women for Christian and patriotic service, whose chief aim at present is the passage of an anti-polygamy constitutional amendment, met and decided to begin a vigorous crusade. Money was voted for literature, speakers and other necessary expenses. Mrs. Mary Leonard Woodruff, Miss Helen M. Gould, Miss Susan Hayes Ward and Mrs. Alfred E. Meyers are among the officers.

TOLSTOI BANISHED

He is Exiled on Account of Privy Councillor's Assassination—Sent to the Frontier.

St. Petersburg, April 2.—It was rumored several days ago, but generally disbelieved, that Count Leo Tolstoi had been banished from Russia because of the attempted assassination of Privy Councillor Pobedonostzeff, chief procurator of the Holy Synod, who was shot at early in the morning of March 22 while sitting in his study, the attempt being attributed to a desire for revenge growing out of the excommunication of Count Tolstoi.

Owing to the indefiniteness of the rumor it was disregarded by the correspondent here of the Associated Press. Now, however, the correspondent has received a private letter from a usually trustworthy source in Vilna, capital of the government of that name, saying that Count Tolstoi was reported to have passed through Vilna March 26, being escorted to the frontier by two gendarmes.

Shenango People Want Advance.

Youngstown, O., April 2.—Employees of the five blast furnaces at Sharpsville, Pa., posted notices demanding the same scale of wages conceded by the blast furnace owners in the Mahoning valley. A general strike is threatened in the Mahoning valley April 5, unless the demands are granted.

New Charters Issued.

Harrisburg, April 2.—Charters were issued at the state department as follows: The Hellman Couch company, Lycoming county, capital, \$15,000; Pike Water company, Hawley, Wayne county, capital, \$1,200.

"A HELPING HAND"

Is Gladly Extended By an East Liverpool Citizen.

There are many enthusiastic citizens in East Liverpool prepared to tell their experience for the public good. Testimony from such a source is the best of evidence and will prove a "helping hand" to scores of readers. Read the following statement:

Mrs. Edmund Purton, of 233 Ravine street, says: "I had backache, headache and other symptoms of kidney complaint for two years. When the last attack came on I went to the W. & W. pharmacy and got a box of Doan's Kidney Pills. In a very short time I was relieved. My husband, who is a painter, decorator and paper hanger of the firm of Purton & Jackson was seized with a severe attack of kidney complaint. Some years ago he contracted a fever which left his kidneys in bad shape, and ever afterwards he had more or less trouble. When suffering last a gentleman advised him to try Doan's Kidney Pills emphasizing the fact that he had been a sufferer with kidney disease, confined to his bed; his physicians informing him that perhaps they would be able to get him up in two or three weeks; that he used Doan's Kidney Pills and in a day or two he was able to be up and about his business. My husband got a box at once. They were prompt in relieving him. We can heartily recommend Doan's Kidney Pills."

Sold for 50 cents a box by all dealers. Foster-Milburn Co., Buffalo, N. Y., sole agents for the United States. Remember the name—Doan's—and take no other.

Mauch Chunk, Pa., April 2.—James I. Blakeslee, a former associate of Asa Packer in the construction of the Lehigh Valley railroad and a director of the road from its inception to the passage of the Wilbur regime, died at his home here. He was 86 years old.

The Best Blood Purifier.

The blood is constantly being purified by the lungs, liver and kidneys. Keep these organs in a healthy condition and the bowels regular and you will have no need of a blood purifier. For this purpose there is nothing equal to Chamberlain's Stomach and Liver Tablets, one dose of them will do you more good than a dollar bottle of the best blood purifier. Price, 25 cents. Samples free at Alvin H. Bulger, Druggist's.

ELECTIONS IN MICHIGAN.

Republican Re-elected Supreme Court Justice—Some Other Results.

Detroit, Mich., April 2.—Robert M. Montgomery, of Grand Rapids, Republican, was re-elected justice of the supreme court by about 40,000 majority, and Frank W. Fletcher, of Alpena, and Henry W. Carey, of Manistee, Republican candidates for regents of the State university, have also been elected by a majority almost as large. The vote cast was light, excepting in those cities where there was a fight on some local issue. There were two constitutional amendments voted on, both of which were defeated. One fixed the compensation of state legislators at \$1,000 per term and mileage, instead of \$3 per day when the legislature is in session, as at present, and the other provided for an increase in the salary of circuit judge in Bay county. The Democrats made a marked gain in Jackson, where their entire city ticket was elected. The city went Republican last year.

In Owosso, S. D. Emery, Prohibitionist, was elected mayor, overcoming a Republican majority last year of 650. He was the only member of that ticket, however, who was successful.

In Detroit, John B. Whelan, Republican, was re-elected police justice, the only municipal officer voted for, by 4,285 majority. Judge Montgomery carried Detroit by over 2,500 majority. Of the 17 school inspectors elected, 11 were Republicans and 6 Democrats.

Women's Missionary Society Met.

New York, April 2.—The fifteenth annual meeting of the Woman's Presbyterian Home Missionary society was held here. The Presbyterian society covers the territory embraced within the New York presbytery and turns over the money which it collects to the woman's home mission board. The total amount collected during the year ending March 31 was \$18,397. The work is largely among colored people and Indians, but special classes of whites are also looked after, such as Mormons. Schools are maintained in Alaska and in Porto Rico.

Sustained Compulsory Vaccination.

Philadelphia, April 2.—The supreme court dismissed the appeal of Charles J. Field, from the decision of the common pleas court of Philadelphia county, which had refused to order Martha L. Robinson, principal of the Keystone grammar school of Philadelphia, to admit the child of Mr. Field as a pupil in the school, the refusal to admit her having been based on the ground that she had not been vaccinated. The court decided that the compulsory vaccination law of 1895 had not been shown to be unconstitutional, and that school directors had full authority to exercise discretion regarding the admission of unvaccinated pupils.

April 1st Without Yellow Fever.

Havana, April 2.—For the first time in the history of Havana, the month of April begins without a single case of yellow fever in the city. Major W. C. Gorgas, chief sanitary officer, is confident that, with the sanitary measures now being enforced and the valuable information gained during the recent investigations of the yellow fever commission, there will be but few cases the coming season.

To Crusade Against Polygamy.

New York, April 2.—The international council of women for Christian and patriotic service, whose chief aim at present is the passage of an anti-polygamy constitutional amendment, met and decided to begin a vigorous crusade. Money was voted for literature, speakers and other necessary expenses. Mrs. Mary Leonard Woolruff, Miss Helen M. Gould, Miss Susan Hayes Ward and Mrs. Alfred E. Meyers are among the officers.

TOLSTOI BANISHED

He is Exiled on Account of Privy Councillor's Assassination—Sent to the Frontier.

St. Petersburg, April 2.—It was rumored several days ago, but generally disbelieved, that Count Leo Tolstoi had been banished from Russia because of the attempted assassination of Privy Councillor Pobedonostzeff, chief procurator of the Holy Synod, who was shot at early in the morning of March 22 while sitting in his study, the attempt being attributed to a desire for revenge growing out of the excommunication of Count Tolstoi.

Owing to the indefiniteness of the rumor it was disregarded by the correspondent here of the Associated Press. Now, however, the correspondent has received a private letter from a usually trustworthy source in Vilna, capital of the government of that name, saying that Count Tolstoi was reported to have passed through Vilna March 26, being escorted to the frontier by two gendarmes.

Shenango People Want Advance.

Youngstown, O., April 2.—Employees of the five blast furnaces at Sharpsville, Pa., posted notices demanding the same scale of wages conceded by the blast furnace owners in the Mahoning valley. A general strike is threatened in the Mahoning valley April 5, unless the demands are granted.

New Charters Issued.

Harrisburg, April 2.—Charters were issued at the state department as follows: The Hellman Cough company, Lycoming county, capital, \$15,000; Pike Water company, Hawley, Wayne county, capital, \$1,200.

"A HELPING HAND"

Is Gladly Extended By an East Liverpool Citizen.

There are many enthusiastic citizens in East Liverpool prepared to tell their experience for the public good. Testimony from such a source is the best of evidence and will prove a "helping hand" to scores of readers. Read the following statement:

Mrs. Edmund Purton, of 233 Ravine street, says: "I had backache, headache and other symptoms of kidney complaint for two years. When the last attack came on I went to the W. & W. pharmacy and got a box of Doan's Kidney Pills. In a very short time I was relieved. My husband, who is a painter, decorator and paper hanger of the firm of Purton & Jackson, was seized with a severe attack of kidney complaint. Some years ago he contracted a fever which left his kidneys in bad shape, and ever afterwards he had more or less trouble. When suffering last a gentleman advised him to try Doan's Kidney Pills, emphasizing the fact that he had been a sufferer with kidney disease, confined to his bed; his physicians informing him that perhaps they would be able to get him up in two or three weeks; that he used Doan's Kidney Pills and in a day or two he was able to be up and about his business. My husband got a box at once. They were prompt in relieving him. We can heartily recommend Doan's Kidney Pills."

Sold for 50 cents a box by all dealers. Foster-Milburn Co., Buffalo, N. Y., sole agents for the United States.

Remember the name—Doan's—and take no other.

THE RESULT IN THE CITY.

The spring election resulted, as the News Review predicted it would, in a general Republican victory. The Democrats put up a strong fight in the First and Fourth wards, but could not muster the necessary votes. The popular verdict is most gratifying, as it guarantees an honest, capable and progressive administration. Since the political fight was made strictly on party lines, it only required Republican vigilance and activity to insure victory. A different result would not have been creditable to the party or to a city where the Republicans are so overwhelmingly in the majority.

THE STAY-AT-HOMES.

Only one Democrat was elected in the entire city and township. There ought to have been no break in the Republican ticket, and there would have been none but for the absolute indifference of many citizens, who careless of their own interests and of the interests of the public, remained away from the polls. East Liverpool is a now well-governed city. How long can it remain so if a large number of its people neglect their plain duty and refuse to have any voice in saying what men shall govern it? That the whole Democratic ticket was not elected was not the fault of the hundreds of Republicans who stayed at home. The local elections are the really important ones, so far as the welfare, progress and prosperity of a community is concerned. There are enough Republicans in East Liverpool to make a proud record for themselves and their city, but they must shake off their lethargy, cease to help their political opponents by neglecting to vote or to work for their own party candidates, and prove themselves citizens with the city's best interests at heart, or the good luck which attended Republicans yesterday may vanish forever.

NEWSPAPER MEN IN PUBLIC LIFE

If P. C. Knox, of Pittsburg, enters the president's cabinet he will be another ex-newspaper man occupying a prominent public position. John Hay, the secretary of state, is a former journalist, and there are probably a dozen men in congress who were reporters or editors before they were statesmen. One of our contemporaries alludes to this fact as if there were something strange in it, evidently forgetting that newspaper men have been conspicuous in public life from the foundation of the government. Benjamin Franklin, the foremost sage and statesman of his day, was a printer and editor; Hannibal Hamlin edited a country weekly in early life, and the

late Nelson Dingley won the reputation which made him governor and congressman solely through his newspaper work. We are not aware that any ex-editor ever sat in the presidential chair, but it is not many years since one of the great national parties nominated and supported an editor for that position.

Journalists have been sent from this country to some of the chief diplomatic positions abroad.

Instances might be multiplied to prove that the lever of the press, besides its supposed influence in moving the world, is not infrequently potent in lifting him who clings to it. This tendency is observable in many other directions besides politics. The ranks of the professional men—lawyers, doctors, ministers—are full of those who have had newspaper experience, and they find the training they got as reporters of the utmost value. While much is heard of late of journalism as a profession, its influence as a stepping-stone to success in other professions is apt to be overlooked.

There was excitement in the palace of the sultan of Turkey yesterday. His throne wobbled and his highness was so excited that he got up and moved a few steps. It was an earthquake that aroused him. Nothing else could.

East Liverpool Republicans might have made a better showing, but compared with that made by their brethren in the larger cities of the state, they have reason for congratulating themselves.

The Ohio State Journal suggests that Funston be permitted to come here and capture John J. Lentz, then the Filipino insurrection will be a thing of the past.

The college man is not a failure in all lines of business. It has just been ascertained in New York that one of them is a successful burglar.

The Republicans kept together. It is their way. They will do so again next fall.

A LONG STRIKE LIKELY.

No Sign of a Compromise Between Painters And Their Employers.

From present indications there will be no painting done in East Liverpool for some time. As the bosses have refused to confer it is not likely that the men will weaken.

The point upon which the union and their employers cannot agree is the clause which requires every man on a job to hold and display, when necessary a current working card.

ON HIS WIFE'S COMPLAINT.

John Brick Was Arrested And Fined \$9.60.

Chief Thompson arrested John Brick at Rigot's saloon this morning on a charge of disorderly conduct. He was brought before Mayor Davidson and fined \$9.60. He stands committed to the work house until the fine is paid. The charge was filed by his wife.

Nelson-Ford.

Rev. Dr. Clark Crawford performed the marriage ceremony which united Thomas Ford, Jr., of Wellsville, and Miss Artie Nelson, of this city. The wedding took place yesterday afternoon at 2:30 at the home of Mrs. Engelmeyer, the grandmother of the bride, on Basil avenue in this city.

HOD CARRIERS' STRIKE.

No Agreement Reached at the Conference Which Was Held Last Night.

The trouble between the hod carriers and the contractors appears as far from settlement as ever.

A conference was held last night, but no agreement reached. The contractors say they would have no objection to giving the hod carriers an increase, but they do not feel disposed to advance the brick wheelers from \$1.75 to \$2.50 per day. This branch has been taken into the union, but they know little or nothing of hod carrying. They have never carried a hod of mortar in their lives, and know no more of the trade than the man in the moon, say the contractors, and should not be met on the same basis as the hands who have served their time.

The bricklayers are idle in consequence of the trouble, but it is likely they will not remain so long. There is a demand for men in their line in both Steubenville and Wheeling, and they state in case the present strike is not settled within a very short time they will go to work down the river.

There is good reason for the belief that a compromise may be effected today.

Brown was arraigned this morning and upon making a clean breast of the whole affair, was bound over to court in the sum of \$500. He will be taken to Lisbon tomorrow morning.

HOD CARRIERS' STRIKE.

No Agreement Reached at the Conference Which Was Held Last Night.

The trouble between the hod carriers and the contractors appears as far from settlement as ever.

A conference was held last night, but no agreement reached. The contractors say they would have no objection to giving the hod carriers an increase, but they do not feel disposed to advance the brick wheelers from \$1.75 to \$2.50 per day. This branch has been taken into the union, but they know little or nothing of hod carrying. They have never carried a hod of mortar in their lives, and know no more of the trade than the man in the moon, say the contractors, and should not be met on the same basis as the hands who have served their time.

The bricklayers are idle in consequence of the trouble, but it is likely they will not remain so long. There is a demand for men in their line in both Steubenville and Wheeling, and they state in case the present strike is not settled within a very short time they will go to work down the river.

There is good reason for the belief that a compromise may be effected today.

SETTLEMENT PROBABLE.

It is Thought the Goodwin Warehouse Girls' Grievances Will Be Adjusted.

The special meeting of the warehouse women's union, held in council chamber last night, was largely attended. It was decided to have the girls at the Goodwin pottery, who have been out on strike for several days, return to work under protest, which they did this morning. They will work until tomorrow evening, when, if the trouble has not been settled, they will again quit work.

The committee appointed by the union to visit the different potteries and secure statistics in regard to the number of girls to be employed, the number of kilns to be drawn each week and the salary, have four potteries yet to visit, and when this has been done another meeting between the committee from the union and the manufacturers will be held. Then, it is thought, the matter will be adjusted to the satisfaction of all concerned.

DROWNED IN THE OHIO.

SAMUEL BARLOW PERISHED AT GALLIPOLIS.

A Young Man Well Known in East Liverpool Whose Parents Live Here.

Word was received in this city last evening that Samuel Barlow had been drowned at Gallipolis during the afternoon.

The young man had been a resident of this city all his life and was about 24 years of age. He was sent to the epileptic institution at Gallipolis three years ago for treatment and has grown steadily worse. Although no particulars are obtainable, the young man was seized with a spell and either fell or jumped into the Ohio river. The remains will be sent to this city this evening or tomorrow morning.

One circumstance connected with the affair is particularly sad. His father, Joseph Barlow, is absent from the city, having gone to Atlantic City last week. The bereaved have the sympathy of the entire community in their affliction.

INJUNCTION CRANTED.

JUDGE FIRESTONE ASKED THE INTERFERENCE OF COURT.

Claimed That Two Men Who Put Down an Oil Well Were About to Ruin It.

Lisbon, April 2.—(Special).—Judge S. J. Firestone has entered suit asking for an injunction against W. M. Dabney and E. B. Webb, who recently drilled an oil well on his land in Knox township. The well turned out a valuable producer and Judge Firestone claimed it as his property. The parties have had trouble, and it is claimed that they will unless restrained by the court, go to the premises and draw out the casing and tubing, take it away and convert it to their own use. This would render the well valueless. The court has issued a temporary restraining order.

Judge Hole held a brief session of court yesterday afternoon. In the case of John Buchanan against Lawrence W. Crummery judgment was rendered for \$1,488 due on a promissory note, and a mortgage on 64.32 acres of land in Franklin township will be foreclosed.

In the case of Emmet M. Allman against W. F. Allman et al partition was ordered made. The land is in Washington township and the plaintiff is entitled to a one-quarter interest.

Mrs. Caroline Deemer, of Columbiana, was appointed administrator of the estate of the late J. Frank Deemer and a \$250 bond was given. There will be no appraisal.

Terry Aiken, of Tiffin, and Alice Haverstadt, of Columbiana county; Edward J. Cole and Leonora Young, of East Liverpool; Webster Hart, of East Elizabeth, Pa., and Anna Little, of Bayard, have been granted marriage licenses.

Judge G. F. Robinson opened court this afternoon. The assignment for the day has been continued.

To Dramatize Book of Genesis.

Even the book of Genesis isn't safe from the encroachments of the dramatists these days. Mrs. George Emmons White has risen on the theatrical horizon and has put Abraham and Sarah and Hagar and Ishmael into a play and thereby has gone right down to the root of the matter. Adam and Eve and Cain and Abel cannot hope to avoid much longer the toils of the footlights. Mrs. White has picked out Hagar as a Biblical character who needs dramatic representation. Her sentence by Abraham to go into the wilderness of Beersheeba and die is the incident in her strenuous life which has been selected as the dramatic motive of the drama.

Russia Disarming Finland.

The governor of Finland, General Robrikoff, has ordered that all the rifles belonging to the Finnish reserve shall be delivered up and stored with the proper authorities at St. Petersburg, writes a Copenhagen correspondent. This order has created a sensation, as it is regarded as a cautious step on the part of the Russian authorities to prevent the possibility of a revolt, although the subjugation of the Finnish people is too complete to give cause for such a fear. The Finnish people are alone in their struggle, and alone they know that nothing can be done.

FIGHTING A WILD CAT.

AN ADVENTURE THAT MADE ONE MAN SCARED.

He is Willing to Go a Long Way to Avoid the Varmints.

"I have read in the papers certain scientific assertions that no wild animal will voluntarily attack or pursue a human being, but that, on the contrary, the fiercest of them, as tradition and the tales of woodsmen classify them, will make haste to escape the possible sight of man, unless, in desperate cases, hunger may urge it to approach him, its most dreaded foe, such cases being extremely rare," said a matter of fact and veracious New York business man.

"If that is so, I had a little experience once with a wild animal that must have been the most desperately hungry beast that ever longed for food. The occurrence was in northwestern Pennsylvania, where one winter I had some business that called me ten miles from the county town to one of the backwoods districts. It was late in the afternoon when I started on my return to the village. The way was over a lonely, narrow, crooked mountain road, bordered by deep woods much of the distance. Toward dusk, as I was rounding a short turn in the road, my horse, which had a good deal of spirit, shied suddenly and sprang forward on a furious run.

"At the same instant an animal with glaring eyes plumped down from somewhere and landed in the sleigh at my feet. It had evidently leaped from a tree at the horse, the quick movements of which nervous animal had defeated that purpose, and the attacking animal had alighted with its fore feet on the robe that lay across my lap. It glared furiously at me, with its face not more than two feet away, as it clung to the robe with its sharp claws, growling fiercely. I had never seen a wildcat, but I knew instantly and instinctively that I had one to deal with here, and it seemed to be a very large and savage one at that. I had no weapon, but fortunately the whip that stood in its socket on the dashboard was loaded at the butt.

"Clinging to the reins with my left hand—the horse was running away—I quickly drew the whip from the socket and struck the wildcat on the head with the heavy butt. That caused the animal to loosen its hold on the robe and drop into the snow at the side of the sleigh, but the agile and furious beast was up in the fraction of a second and with one bound sprang on the back of the sleigh, which had a low body.

"Although the horse was running madly away along the narrow and crooked road, throwing the sleigh from side to side and threatening it constantly with destruction against some rock or stump, I was obliged to drop the reins and leave the result of the runaway to chance, for the wildcat was struggling desperately to gain a foothold in the sleigh and fight me at close quarters. I knew that if the sleigh should happen to come into collision with any obstacle heavy enough to wreck it I would be no match for the catamount, now wrought to the utmost ferocity, fighting it on the slippery snow, even if I were unharmed by the collision, so I strained every nerve to conquer the determined beast while I still possessed the advantage of foothold in the sleigh.

"Once I thought it was all up with me, for as the sleigh was carried abruptly round a short turn in the road by the speeding horse one runner struck a stone or a root, and the sleigh

careened and ran at least 50 feet on the other runner alone. I mechanically threw the weight of my body toward the upper side of the sleigh, all the time raining rapid blows on the head of the wildcat with the butt of the whip, and forced the sleigh down to its balance on both runners again. A few more blows after that, and I was rejoiced to see the determined and tenacious beast first loosen one claw, hang for a second or so by the other, while it tried to seize the top of the back of the sleigh again with its teeth, and then tumble to the road and lie motionless in the snow.

"I dropped back on the seat limp and weak and too much unnerved to make the least effort to obtain control of the runaway, which was still rushing wildly along the uncertain road, made still more uncertain by the gathering darkness. The horse ran at least three miles farther and then began to slow up and at last stopped half way up a long and steep hill from sheer exhaustion. I had by this time recovered sufficiently to take charge of the horse again and drive the rest of the way to the town, which wasn't far, and where I arrived with the horse covered with foam, a sleigh splintered and covered deep with scars and scratches made by the desperate wildcat and myself so badly used up by nervous shock that it was three days before I was able to get about again in anything like good condition. I never heard whether the wildcat was killed by my blows or not, but I have an idea he was. I hope so. Science may be all right in declaring that wild animals will hasten to flee at the very suspicion of man's approach, but if ever I am going anywhere and hear there are wildcats in that direction I'll go around some other way."—New York Press.

Warranted to Cure Smallpox.

I hereby append a recipe which has been used to my knowledge in hundreds of cases. It will prevent or cure the smallpox, though the pittings are filling. When Jenner discovered cowpox in England, the world of science hurled an avalanche of fame upon his head, but when the most scientific school of medicine in the world, that of Paris, published this recipe as a panacea for smallpox it passed unheeded. It is as unfailing as fate and conquers in every instance. It is harmless when taken by a well person. It will cure scarlet fever. Here is the recipe as I have used it to cure smallpox. When learned physicians said the patient must die, it cured: Sulphate of zinc, one grain; foxglove (digitalis), one grain; half a teaspoonful of water. When thoroughly mixed, add four ounces of water. A teaspoonful is a dose. Either disease will disappear in 12 hours. For a child, smaller doses, according to age. If countries would compel their physicians to use this, there would be no need of pesthouses. If you value advice and experience, use this for that terrible disease.—Stockton Herald.

FIGHTING A WILD CAT.

AN ADVENTURE THAT MADE ONE MAN SCARED.

He is Willing to Go a Long Way to Avoid the Varmints.

"I have read in the papers certain scientific assertions that no wild animal will voluntarily attack or pursue a human being, but that, on the contrary, the fiercest of them, as tradition and the tales of woodsmen classify them, will make haste to escape the possible sight of man, unless, in desperate cases, hunger may urge it to approach him, its most dreaded foe, such cases being extremely rare," said a matter of fact and veracious New York business man.

"If that is so, I had a little experience once with a wild animal that must have been the most desperately hungry beast that ever longed for food. The occurrence was in northwestern Pennsylvania, where one winter I had some business that called me ten miles from the county town to one of the backwoods districts. It was late in the afternoon when I started on my return to the village. The way was over a lonely, narrow, crooked mountain road, bordered by deep woods much of the distance. Toward dusk, as I was rounding a short turn in the road, my horse, which had a good deal of spirit, shied suddenly and sprang forward on a furious run.

"At the same instant an animal with glaring eyes plumped down from somewhere and landed in the sleigh at my feet. It had evidently leaped from a tree at the horse, the quick movements of which nervous animal had defeated that purpose, and the attacking animal had alighted with its fore feet on the robe that lay across my lap. It glared furiously at me, with its face not more than two feet away, as it clung to the robe with its sharp claws, growling fiercely. I had never seen a wildcat, but I knew instantly and instinctively that I had one to deal with here, and it seemed to be a very large and savage one at that. I had no weapon, but fortunately the whip that stood in its socket on the dashboard was loaded at the butt.

"Clinging to the reins with my left hand—the horse was running away—I quickly drew the whip from the socket and struck the wildcat on the head with the heavy butt. That caused the animal to loosen its hold on the robe and drop into the snow at the side of the sleigh, but the agile and furious beast was up in the fraction of a second and with one bound sprang on the back of the sleigh, which had a low body.

"Although the horse was running madly away along the narrow and crooked road, throwing the sleigh from side to side and threatening it constantly with destruction against some rock or stump, I was obliged to drop the reins and leave the result of the runaway to chance, for the wildcat was struggling desperately to gain a foothold in the sleigh and fight me at close quarters. I knew that if the sleigh should happen to come into collision with any obstacle heavy enough to wreck it I would be no match for the catamount, now wrought to the utmost ferocity, fighting it on the slippling snow, even if I were unharmed by the collision, so I strained every nerve to conquer the determined beast while I still possessed the advantage of foothold in the sleigh.

"Once I thought it was all up with me, for as the sleigh was carried abruptly round a short turn in the road by the speeding horse one runner struck a stone or a root, and the sleigh

careened and ran at least 50 feet on the other runner alone. I mechanically threw the weight of my body toward the upper side of the sleigh, all the time raining rapid blows on the head of the wildcat with the butt of the whip, and forced the sleigh down to its balance on both runners again. A few more blows after that, and I was rejoiced to see the determined and tenacious beast first loosen one claw, hang for a second or so by the other, while it tried to seize the top of the back of the sleigh again with its teeth, and then tumble to the road and lie motionless in the snow.

"I dropped back on the seat limp and weak and too much unnerved to make the least effort to obtain control of the runaway, which was still rushing wildly along the uncertain road, made still more uncertain by the gathering darkness. The horse ran at least three miles farther and then began to slow up and at last stopped half way up a long and steep hill from sheer exhaustion. I had by this time recovered sufficiently to take charge of the horse again and drive the rest of the way to the town, which wasn't far, and where I arrived with the horse covered with foam, a sleigh splintered and covered deep with scars and scratches made by the desperate wildcat and myself so badly used up by nervous shock that it was three days before I was able to get about again in anything like good condition. I never heard whether the wildcat was killed by my blows or not, but I have an idea he was. I hope so. Science may be all right in declaring that wild animals will hasten to flee at the very suspicion of man's approach, but if ever I am going anywhere and hear there are wildcats in that direction I'll go around some other way."—New York Press.

Warranted to Cure Smallpox.

I hereby append a recipe which has been used to my knowledge in hundreds of cases. It will prevent or cure the smallpox, though the pittings are filling. When Jenner discovered cowpox in England, the world of science hurled an avalanche of fame upon his head, but when the most scientific school of medicine in the world, that of Paris, published this recipe as a panacea for smallpox it passed unheeded. It is as unfailing as fate and conquers in every instance. It is harmless when taken by a well person. It will cure scarlet fever. Here is the recipe as I have used it to cure smallpox. When learned physicians said the patient must die, it cured: Sulphate of zinc, one grain; foxglove (digitalis), one grain; half a teaspoonful of water. When thoroughly mixed, add four ounces of water. A teaspoonful is a dose. Either disease will disappear in 12 hours. For a child, smaller doses, according to age. If countries would compel their physicians to use this, there would be no need of pesthouses. If you value advice and experience, use this for that terrible disease.—Stockton Herald.

UNDER RIPPER LAW

The Second Class City of Scranton Proceeds According to the New Statute.

VOSBURG GOES OUT OFFICE

A Friend of the Ripper Clause Fled by Recorder Moir—Republicans Unable to Increase the Number of Members of Councils.

Scranton, Pa., April 2.—Scranton made her transit from the third to the second class of cities and proceeded to do business under the celebrated Muehlbrunner act and its more celebrated "ripper" schedule. The reorganization ordinance which is to carry the act into effect was vetoed by Recorder Moir because of alleged inconsistencies and, strictly speaking, the new charter has not yet been accepted, but as there is no choice in the matter but to accept a new ordinance will be passed to meet the views of the recorder. His principal objection to it was that it attempted to join the office of delinquent tax collector to that of treasurer. The recorder is given the right to appoint the collector and he proposes to execute that right.

Select council reorganized by electing C. E. Chittenden, Republican, as chairman over J. J. Costello, Democrat, by a party vote of 11 to 10.

In common council the Democrats started out to organize on a basis of 21 and the Republicans attempted to organize with the expanded membership of 39. The Democrats are in the majority in the smaller council. The expanded council is a tie. The Democrats allege that the 17 additional members provided for by the new charter were not regularly elected. The Democrats succeeded in organizing the council of 21, while the Republicans had to give up their attempt to organize a council of 39 because of their inability to secure a Democrat to join with them in making a quorum of 20. The 17 rejected members will go into court to get possession of their seats. There was some pandemonium during the time that the rival parties were trying to organize separate councils in the one room. No violence, however, ensued.

Recorder Moir caused a sensation by "ripping" out City Solicitor A. A. Vosburg, who was one of the Scrantonians to go down to Harrisburg to work in the interests of the "ripper." George M. Watson, the recorder's private attorney, was named to succeed Mr. Vosburg.

Frank H. Clemons was appointed director of safety; John E. Roche, director of public works, and Fred Fuller, director of charities. Mr. Roche is the Democratic leader of select council and was the Democratic candidate for mayor against Moir two years ago. Every subordinate official and employee was reappointed to a position nearest akin to the one he formerly held. The one exception was John A. Neals, Democratic member of the board of city assessors. Politics, however, did not control his dismissal.

In his annual message, Recorder Moir dwelt at length upon the clause of the Muehlbrunner act which permits a city to tax as high as it pleases any corporation doing business within its borders. Heretofore, as a third class city, Scranton could not tax them more than \$100 a year. The recorder advised making them pay liberally toward the city expenses.

CHINA DEFIES RUSSIA.

Plenipotentiaries Ordered Not to Sign Manchurian Treaty.

London, April 2.—"The Chinese emperor, I am officially informed, has instructed the Chinese plenipotentiaries," says the Pekin correspondent of The Daily Mail, "not to sign the Manchurian convention, even in a modified form."

St. Petersburg, April 2.—The new term within which the signature of the Manchurian agreement is demanded expires Wednesday. The confidence that the treaty will be accepted substantially in its present form is apparently unshaken here, though no positive prophecies are made.

HAZING DIDN'T KILL BOOZ.

Findings of the Military Court—Congress Took All Action Necessary.

Washington, April 2.—The findings of the military court of inquiry which investigated the treatment of the late Oscar L. Booz, cadet at West Point, have been made public at the war department. The findings are summed up in a letter written by Secretary Root, which accompanies the report. The letter says:

"The findings of this court of inquiry, which are sustained by the evidence, show that the statements which led to the convening of the court, to the effect that former Cadet Oscar L. Booz came to his death by reason of injuries received by hazing at the academy, were not true. They show that, at the time Cadet Booz was a member of the academy, hazing was prevalent there to a deplorable extent; that the present officers

The Pains of Kidney Disease

Warn You Against the Most Dreadfully Fatal of Disorders. You Can be Cured by Promptly Using Dr. Chase's Kidney-Liver Pills.

Pain is nature's signal whereby she warns man of approaching danger. Few diseases are so dreadfully fatal as disorders of the kidneys and few are accompanied by more severe pains and discomforts.

One of the most common symptoms of kidney disease is the smarting, scalding sensation when passing water which is likely to come very frequently and at inconvenient times. Then there is the dull, heavy aching in the small of the back and down the limbs. When these pains are accompanied by deposits in the urine after it has stood for twenty-four hours you may be sure that you are a victim of kidney disease and should not lose a single day in securing the world's greatest kidney cure—Dr. Chase's Kidney-Liver Pills.

Take one pill at a dose, and in a surprisingly short time you will be far on the road to recovery, for Dr. Chase's Kidney-Liver Pills act directly and promptly on the kidneys, and are certain to prove of great benefit to any one suffering from irregularities of those organs.

See that you get the genuine, with portrait and signature of Dr. A. W. Chase.

Sold in East Liverpool by Charles T. Larkins.

Don't imagine that you are experimenting when you use Dr. Chase's Kidney-Liver Pills. They are almost as well known as his great Recipe Book, have made some of the most surprising cures of kidney disease on record and have come to be considered the only absolute cure for kidney disease.

Mr. J. Curtiss, a well known R. R. engineer, living at 191 Murry street, Binghamton, N. Y., writes:

"Soon after going on the road I began to be troubled by severe pains in my back accompanied by such terrible weakness that I was obliged to stop work for days at a time."

"Hearing of the good results obtained by using Dr. Chase's Kidney-Liver Pills, I gave them a trial. They helped me almost immediately, and now I can truthfully say that I am as well as any man, thanks to Dr. Chase's Kidney-Liver Pills."

GIBBONS TO GO TO ROME.

Will Pay a Visit to the Sovereign Pontiff.

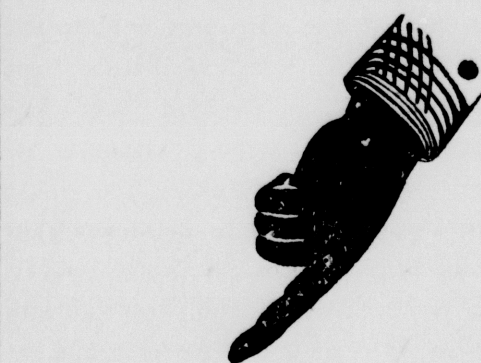

Baltimore, April 2.—Cardinal Gibbons hopes to be able to sail for Europe soon after May 5. All depends upon the date chosen for the ceremony of conferring the red baretta upon Mgr. Martinelli, whose elevation to the cardinalate probably will be announced at the consistory on April 15. The cardinal will sail from New York for Naples, and will go thence to Rome, where he will pay his visit of duty to the Sovereign Pontiff.

His eminence will then visit Berlin and parts of Holland, and may go still farther. On his way home he will stop to see Cardinal Vaughan in England. During the cardinal's absence the affairs of the archdiocese will be administered by Bishop Alfred L. Curtis.

Mr. Loomis to Leave on Gunboat.

Washington, April 2.—It was decided that in the interest of a quick passage to the United States, Minister Loomis, called to Washington, should be carried by the Scorpion to San Juan, Porto Rico, there to take one of the regular merchant steamers for New York. The officials did not know positively when the minister would leave Venezuela, but at the navigation bureau it was stated that there was no good reason why the Scorpion should not sail yesterday from La Guaira if Mr. Loomis was on hand.

TOM JOHNSON WINS

Defeats William J. Akers, Republican, For Mayor of the City of Cleveland.

JONES, OF TOLEDO, RE-ELECTED

Again Victorious at Toledo—Democrats Carried Larger Cities of Ohio and Some Smaller Places—Republicans Made Slight Gains in State.

Cincinnati, April 2.—Municipal and township elections occurred in this state. A large vote was cast. A full state ticket is to be elected next November, as well as members of the legislature, who will choose a successor to Senator Foraker. In a few localities legislative nominations were made by popular vote. None showed any opposition to Foraker among the Republicans, and there was not enough action to indicate any preference for John R. McLean, Tom L. Johnson or any one else as the Democratic favorite for the senatorship. There was no election in Cincinnati. Mayor Fleischmann and the other Republican city officers were elected one year ago for a period of three years. There will be no election at Dayton for mayor until next April, the contest in that city being for police judge only. Special interest was taken in the contest at Columbus, where the Republicans for the past two years have had all the city offices. Governor Nash and former Congressman Lentz reside at Columbus, and both took great interest in the contest there. Democratic administrations were in control at Cleveland and Springfield, where the Republicans made hard fights to control the political machinery of as many cities as possible at the state election in November. Sam Jones made his race for the third term for mayor of Toledo, independent of all parties, and on his Golden Rule platform.

Democrats Carried Larger Cities.
While the Democrats carried the larger cities and some of the smaller places, yet the Republicans show slight gains in the state as a whole. In the three larger cities, Cleveland, Columbus and Toledo, the Democrats show gains which are offset by Republican gains in the smaller cities throughout the state.

At Columbus, where the Republicans have had the city government, the Democrats elected their mayor by close margins, while at Cleveland, ex-Congressman Tom L. Johnson, Democrat, was elected mayor by about 3,000 plurality.

Golden Rule (non-partisan) Samuel Jones was re-elected for the third time at Toledo.

Toledo, April 2.—Fremont, Mansfield and Clyde went Democratic. Fostoria, Vanwert, Findlay and Pemberville went Republican.

Toledo, April 2.—Liberty Center, Perrysburg and Bowling Green elected majorities of the Republican tickets. Holgate, Delphos, Leipsic and Bucyrus went Democratic.

Columbus, April 2.—John N. Hinkle, Democrat, was elected mayor over Henry C. Taylor, Republican, by about 200 plurality. The present administration is Republican.

Cleveland, April 2.—The remarkable feature of the municipal election is the overwhelming defeat of Mr. William J. Akers, Republican, by what later returns show to be about 5,000 plurality. The city council will have a Republican majority of two. Kurtz, Republican, for city treasurer, was elected; Fiedler, Republican, for police judge, and Schindler, Republican, for police prosecutor, were elected. The school council is also Republican. Mr. Akers' defeat is generally believed to be due to the charge that he represented what is known as the McKisson faction in local Republicanism.

Canton, O., April 2.—James H. Robinson, Republican, elected mayor two years ago by 13, was re-elected by about 600. The council is Democratic.

Jones Made Unique Campaign.

Toledo, O., April 2.—Samuel M. Jones was elected to succeed himself as mayor of Toledo. His majority over McMakin will be about 3,000. Jones announced himself as a non-partisan candidate and his nomination was secured by petition, the papers being widely circulated and signed by the majority of the workingmen. He was endorsed by the Democratic convention and was, in fact, the Democratic candidate. His campaign was

unique. His forces were not marshaled and he had no campaign committee to take charge of the fight. He spoke in every ward and precinct in the city, advocating the Golden Rule.

The Republicans had a strong candidate in General W. M. McMakin, who served in the Spanish-American war with distinction.

REPORT OF DECISION GARBLED.

Part of What Opinion Was in Arbuckle's Injunction.

Columbus, O., April 2.—An inaccurate condensation of the decision of the United States circuit court in the injunction suit brought by Arbuckle Bros. against State Food Commissioner Blackburn was sent out from this city a few days ago. The court was made to say a certain brand of coffee was "adulterated within the meaning of the statutes," and its sale was a "misdemeanor of the laws of Ohio," whereas the opinion in its exact term declared that the brand in question "is not a compound of coffee, sugar and eggs, but it is coffee coated with a glaze made of sugar and eggs, and it is so coated as to conceal damage or inferiority, or if by means of the coating it is made to appear better or of greater value than it really is, it is adulterated within the meaning of the statute."

WOOD ALCOHOL

Steubenville, April 2.—Dr. James Lucas, a veterinarian, died here yesterday from the effects of drinking wood alcohol. He was 35 years of age, and was born in England. He came here from Lisbon, O. He was in the habit of drinking the stuff to induce sleep.

The last draught was taken in such quantity that it is thought it was taken for suicidal purposes.

Womanly "Tenderness."
"Don't talk to me of the tenderness of woman's heart," said the man who hates women, though he has never been married. "She hasn't any. I was traveling recently on a through train to New York from the west, and in the morning, just after most of us had dressed and were sitting in the end of the car, the conductor came and called two men away. One of them belonged to an intelligent and well dressed woman sitting opposite me, and when he came back she asked him what the conductor wanted.
"Why," said the man seriously, 'the man in lower 8 has been found dead.'
"The woman's eyes widened, and I thought she was going to say something sweet and sympathetic, but she didn't. What she said was:
"Why, how thoughtless of him, in a car with all these women too!"

Womanly "Tenderness."

"Don't talk to me of the tenderness of woman's heart," said the man who hates women, though he has never been married. "She hasn't any. I was traveling recently on a through train to New York from the west, and in the morning, just after most of us had dressed and were sitting in the end of the car, the conductor came and called two men away. One of them belonged to an intelligent and well dressed woman sitting opposite me, and when he came back she asked him what the conductor wanted."

"Why," said the man seriously, 'the man in lower 8 has been found dead.' 'The woman's eyes widened, and I thought she was going to say something sweet and sympathetic, but she didn't. What she said was:

"Why, how thoughtless of him, in a car with all these women too!" "Don't talk to me about women."—Washington Post.

MOVING PICTURES.

HOW THE SKETCHES ARE REPRODUCED FOR THE FILMS.

The Amount of Movement That Can Be Crowded Into 50 Seconds.

"A queer thing about moving pictures," said an expert operator in that line to a New Orleans Times-Democrat reporter, "is the illusion they generally produce as to the time they occupy while on the screen. What is known as the 'standard exhibition film' is 50 feet long. It is used almost entirely for comic scenes, trick pictures and other effects that are got up in the studios of the experts who make them a specialty. Every theater goer has seen them, and I will venture the assertion that the average man will declare they take at least three or four minutes in passing before the eye. As a matter of fact the picture is on the screen less than one minute. You can easily figure it out for yourself. The ordinary 50 foot film of the kind to which I refer is put through the reproducing machine at the rate of 16 pictures to the second. Each picture is three-fourths of an inch broad, which makes the 16 measure exactly one foot, edge to edge; in other words, the film travels a foot a second—50 feet, 50 seconds. What gives it the effect of taking up so much more time is the immense lot of action that is usually crowded into the brief period it is in view. Until the moving picture was invented I don't think anybody had the least idea how much could be done in 50 seconds. It seemed hardly time enough to turn around in, yet when the experts began to study its possibilities they found it was ample for hundreds of little pictorial comedies that have since delighted audiences all over the world.

"It is entirely a matter of rehearsal. A subject is selected, generally calling for from three to four people, and every detail of the 'business' or action is carefully worked out in advance. Suppose, for illustration, that a comic burglary is the topic. The business, in skeleton, might run something like this: Old gentleman dozing in parlor; enter burglar; old gentleman awakes; burglar hides; enter policeman, searches the room, collars old gent; they fight and roll on the floor while burglar suddenly emerges and leaps out of the window. That doesn't sound particularly side splitting, but in the hands of intelligent comedians it can be made really very funny. The all essential thing is to crowd it into 50 seconds, and to that end each bit of action is carefully timed and made to fit into each other bit like so many well geared cogwheels. The old gentleman's startled yawn, the burglar's glance around the room and every step, movement and gesture from beginning to end is calculated with the utmost nicety, and at last after dozens of rehearsals the act is attempted before the recording machine. If everybody is lucky, it goes through on sched-

ule time, but the slightest hitch is fatal, and if one occurs the film is spoiled, and they must try all over again. No wonder it seems impossible to future spectators that so much could transpire in 50 seconds.

"But some of the most telling effects in composition pictures," continued the operator, "have been the result of accident and were entirely unpremeditated. That was the case with a film that I had a hand in preparing and that afterward made a tremendous hit and proved to be one of the best sellers ever put on the market. In getting up the picture our principal purpose was to introduce a large and very intelligent bulldog I owned at the time, and we sketched out a simple little scene in which a tramp steals a pie from a kitchen window, is pursued by the dog and is last seen trying to scale the back fence with the animal hanging to his coat-tails.

"The training of the dog was the main trouble, but I finally taught him to lay hold of anything red, and we sowed a big piece of flannel as a mark to the back of our tramp's coat. Red photographs black, so it couldn't be seen in the pictures, and after a good many rehearsals the dog learned to dash out at exactly the right moment and nail the marauder, whose cue was then to rush for the fence and consume the remaining time in making an apparently desperate effort to scramble over the top. At last we got everything all ready, gave the word and started the record machine to take the picture.

"Immediately the little comedy began. The tramp appeared, looked around stealthily, saw the pie, hooked it and was having a feast when out sprang the bulldog and seized him by the coat-tails. He thereupon sprinted to the fence and was about to carry out the rest of the programme when, to our consternation, the boards gave way, and he came down bang on top of the dog. The film had about ten seconds to run, and it was occupied in recording one of the liveliest scraps that ever happened. There was no hippodrome about it. Both parties were out for blood. When the fence fell, the bulldog had promptly transferred himself from the tramp's coat-tail to the tramp's calf, while that unfortunate person snatched up a broomstick and tried to pry him loose. They rolled over and put about 50 times as much action and animation in the last ten seconds as had been crowded into the preceding 40. We finally pulled them apart, and it was not until the negative was developed that we realized what a prize we had accidentally secured. That earnest and impromptu wind up has convulsed audiences all over Christendom and made fully as much of a hit in Europe as it did at home."

A CHECK ON PUBLIC ROGUES

Any Citizen May Prosecute an Official Rascal.

Judge Shumway of the superior court of Connecticut has just handed down a decision to bring suit against officers of a town for the recovery of funds alleged to be owed by the officers to the town. The suits against Philip Finnegan, tax collector of Greenwich, and his bondsman were brought in the name of A. A. Marks of Sound Beach. In a demurrer it was asserted that a citizen had no right to bring such an action, but that if a suit were brought it should be instituted by the town in its corporate capacity.

If this position were declared to be sound, the litigation resulting from the recent investigation of town affairs in Greenwich would come to a speedy end, for, as things are in Greenwich, no town meeting would approve continuing it. Attorney Samuel Fessenden appeared for the defendant and argued for the demurrer, while Attorney Morris W. Seymour defended the action instituted by Marks.

There are six suits instituted against Finnegan and others, the allegations in each being practically the same. They are to the effect that, while the property in Greenwich was taxed for \$73,324.58, Finnegan only paid to the town in 1892, when he was collector, the sum of \$61,287.29, and the balance of \$12,000 was lost. It is alleged that the missing sum was collected in additional interest on taxes and in other similar ways, but that the books were kept improperly, and no records were made of the money.

The allegations in the demurrer were to the effect that the defendants are

not liable only to the town of Greenwich for the faithful performance of their duty, and that, therefore, when the selectmen are by the law the properly appointed officer to sue if a duty is negligently performed by a town officer that officer or his bondsman cannot be made liable to any individual. In defense it was set up that the plaintiff is a taxpayer and property holder of the town and is therefore directly interested in seeing that the laws are properly obeyed and that the town officers perform their duties thoroughly. It was pointed out that if it were not possible for a private citizen to institute such a suit it would be an easy matter for a ring to obtain possession of such offices as the board of selectmen and similar offices, and by mismanagement, which they would refuse to stop, could soon bankrupt the town.

The sustaining of the demurrer would have thrown the whole suit out of court and left absolutely no means of redress. The demurrer was overruled.

The River Record.

The marks at the wharf this morning registered 12 feet and falling. The Virginia and Ben Hur passed down last night and the Kanawha will be down tonight. The Queen City will be up tonight. A CHECK ON PUBLIC ROGUES

Any Citizen May Prosecute an Official Rascal.

Judge Shumway of the superior court of Connecticut has just handed down a decision to bring suit against officers of a town for the recovery of funds alleged to be owed by the officers to the town. The suits against Philip Finnegan, tax collector of Greenwich, and his bondsman were brought in the name of A. A. Marks of Sound Beach. In a demurrer it was asserted that a citizen had no right to bring such an action, but that if a suit were brought it should be instituted by the town in its corporate capacity.

If this position were declared to be sound, the litigation resulting from the recent investigation of town affairs in Greenwich would come to a speedy end, for, as things are in Greenwich, no town meeting would approve continuing it. Attorney Samuel Fessenden appeared for the defendant and argued for the demurrer, while Attorney Morris W. Seymour defended the action instituted by Marks.

There are six suits instituted against Finnegan and others, the allegations in each being practically the same. They are to the effect that, while the property in Greenwich was taxed for \$73,324.58, Finnegan only paid to the town in 1892, when he was collector, the sum of \$61,287.23, and the balance of \$12,000 was lost. It is alleged that the missing sum was collected in additional interest on taxes and in other similar ways, but that the books were kept improperly, and no records were made of the money.

The allegations in the demurrer were to the effect that the defendants are

restricted only to the town of Greenwich for the faithful performance of their duty, and that, therefore, when the selectmen are by the law the properly appointed officer to sue if a duty is negligently performed by a town officer that officer or his bondsman cannot be made liable to any individual. In defense it was set up that the plaintiff is a taxpayer and property holder of the town and is therefore directly interested in seeing that the laws are properly obeyed and that the town officers perform their duties thoroughly. It was pointed out that if it were not possible for a private citizen to institute such a suit it would be an easy matter for a ring to obtain possession of such offices as the board of selectmen and similar offices, and by mismanagement, which they would refuse to stop, could soon bankrupt the town.

The sustaining of the demurrer would have thrown the whole suit out of court and left absolutely no means of redress. The demurrer was overruled.

The River Record.

The marks at the wharf this morning registered 12 feet and falling. The Virginia and Ben Hur passed down last night and the Kanawha will be up tonight. The following towns have passed the city: Down—Clifton, Epworth and Valiant. Up—Fallie, Stella Moren, William G. Horner and Maggie.

16TH YEAR. NO. 249.

EAST LIVERPOOL, O., TUESDAY, APRIL 2, 1901.

TWO CENTS

VICTORY FOR REPUBLICANS IN THE CITY AND TOWNSHIP

Democrats Shut Out Everywhere Except In the Fifth Ward Where They Elected an Assessor by Three Plurality.

HOT CONTESTS FOR COUNCILMANIC HONORS

But Henry Bullock Won In the First Ward and Leroy Orr In the Fourth, Each Having Many Votes to Spare—The Vote In General a Light One—Figures For Each Precinct In the City and Township and Gossip About the Election.

The township and municipal elections have come and gone, and once more the Republican ticket has been elected in its entirety, with the single exception of an assessor in the Fifth ward. The vote was not large, but what was lacking in that regard was more than made up in the interest taken in every section of the city.

Most of the interest was centered in the contests for council, and in three of the five wards a hard fight was put up by Democrats and Prohibitionists.

Bullock and McHenry, Republican and Democrat, respectively, were pitted against each other in the First, and it was generally conceded that the former had by far the harder fight on his hands. McHenry, although a Democrat, has a great many friends and was considered a hard

Miles was his opponent, and he had been selected by the Prohibitionists. The count in this ward was not completed until after 11 o'clock, and from the time the box was opened and the first ticket counted, it was anyone's victory. Toward the finish Thomas gained steadily and when the judges had finished he was 29 ahead.

The result of the spring election was most gratifying to the Republicans of the city and they have the assurance that for another year at least the affairs in this municipality will be in safe hands.

For assessors the vote was as follows: Ward 1—Pct. 1, McKenty, R., 204; McCullough, D., 52; Aley, Pro., 20. Pct. 2, McKenty, R., 147; McCullough,

man to beat. However, the Republican had the safe majority of 95 votes when the count was made.

In the Second and Third wards it was a foregone conclusion that Barlow and Horwell would win out. With the Fourth and Fifth it was different.

Tom Starkey, of the Fourth, candidate of the Democracy, had been out for more than three weeks, and when the polls opened in the morning he had a small army lined up at the two precincts. There was a sprinkling of Republicans among them, too, which was no credit to either themselves nor their party. The way Orr trimmed the Democrats and Mugwumps was a caution. This fight demonstrated the fact that there are a host of good Republicans in the ward who can be relied upon in every emergency, and the way they turned out yesterday was enough to put every bolter in the city to shame. When the count was finished Orr had 175 votes to the good.

In the lower precinct of this ward some excitement was occasioned by an accusation on the part of one of the Republican judges, who claimed that one of the candidates on the Prohibition ticket had voted at both of the late primary elections. The commotion quickly subsided, however, and nothing occurred to disturb the election during the balance of the day.

In the Fifth a strenuous effort was made to defeat W. B. Thomas, Republican candidate for council. James

ELECTION DAY IN OTHER TOWNS

Result at the County Seat and In Other Columbiana County Cities.

TEMPERANCE IN COLUMBIANA

Cut Quite a Figure in the Election. Two Anti-Saloon Men Elected to Council—Lisbon Voted on Electric Light And Water Works Bonds.

Lisbon, April 2.—(Special.)—The election was quiet and the vote small. The following are the winners: Justices of the Peace, J. B. Richle, Lodge Riddle, J. M. Dickinson; township trustee, Abraham Moore; township treasurer, W. H. Hepburn; constable, Geo. Zimmerman; assessor, E. E. Hess; city solicitor, C. C. Connell; water works trustee, Allen A. Ramsey; council, Charles W. Huston, T. M. Armstrong, George D. Evans; school board, Ed A. King and Ed F. Moore, all Republicans.

The vote on bond issue resulted in favor of \$35,000 bonds for electric light. The vote stood 437 for and 212 against.

On the \$4,000 bonds for water works the vote was 477 for and 194 against.

SALEM

Democratic Justice Chosen—Republican Victories on Councilmen.

Salem, April 2.—(Special.)—The leading fight here was on justice of the peace and it resulted in the election of O. J. Estray, D., by a vote of 941 in the town and township against 550 for K. L. Cobourn, R.

On councilman the Republicans were more successful, the vote showing: First ward, Samuel West, R., 186; John Dougher, D., 206. Second ward, Smith R. Reed, R., 167; F. Y. Allen, D., 87. Third ward, John Trotter, R., 142; Charles Cavanaugh, D., 140. Fourth ward, William Turner, R., 229; James McNeelan, D., 160. Both Cavanaugh and McNeelan were Democratic councilmen up for re-election. For board of education, L. B. French and A. C. Yengling, both Republicans, were elected over A. W. Schiller and Patrick Redington, D., by substantial majorities.

WELLSVILLE.

The City Election Resulted in a Complete Victory for the Republicans.

Wellsville, April 2.—(Special.)—The city election resulted in a Republican victory. The main fight was on water works trustee, two being elected. The vote stood: Rogers, R., 629; Silver, R., 538; Broderick, D., 257; Grafton, D., 351. For council, the following were elected: E. G. Whitaker (re-elected), C. O. Shoup, Andrew J. Brennan, Matthias Glaser (re-elected), H. C. Aughinbaugh. Assessors, William Holliday, G. D. Wilson, D. R. McGregor, D. G. Paisley, James Wellington.

Three justices of the peace were elected, J. W. Reilly, A. G. McKenzie and W. F. Haney. Board of education, Dr. B. R. Parke, Dr. Park Rex, W. F. Lones and P. H. White. Cemetery trustee, John McLean.

NEW WATERFORD.

The Independent Citizens' Ticket Proved to Be a Winning One.

New Waterford, April 2.—(Special.)—The regular Republican nominees were opposed and defeated by an Independent citizens' ticket, which received the support of citizens in all parties. The result of the vote was: Mayor, J. H. Koch, I., 84; John Oyster R., 38. Treasurer, C. C. Leyda, I., 66; John Nevin, R., 58. Clerk, Samuel C. Scott, I., 71; William Billingsley, R., 54. Marshal, Simon Unger, I., 84; T. B. Walker, R., 42.

For council the following Independent were elected: Walter Scovill,

Geo. J. Koch, Joseph Bretz, H. G. Dow, F. Z. Kinnear, T. F. Bollnogle.

LEETONIA

The Result Somewhat Mixed, Both Parties Electing Some of Their Candidates.

Leetonia, April 2.—(Special.)—The result was mixed. The Republicans elected two councilmen, Scattergood and Selfridge, and the Democrats one, Raugh. On the board of education two Democrats were elected, Craven and Sigle. For water works trustee Dalzell and cemetery trustee Rummell, both Democrats, were elected. For township trustee, Crowthers, D.; treasurer, Forney, R.; justice, Sheldon, D.; constable, Wells, R. and assessor, Stiver, D., were elected.

COLUMBIANA.

The Temperance Question Played an Important Part in Deciding the Election.

Columbiana, April 2.—(Special.)—On the township ticket the following were elected: Justice, Henry Gleckner, D.; trustee, Chamberlain, D.; treasurer, Holloway, R.; assessor, Harold, D.; constables, Haag and Roller, D.

In the town the temperance question was the issue. Two of the three elected were Republicans and anti-saloonmen. The successful ones were Jacob Detwiler, R.; Frank Grove, R., and Dayton Fisher, D.

EAST PALESTINE

A Complete Republican Victory for Town And Township Ticket.

East Palestine, April 2.—(Special.)—The election resulted in a complete Republican victory in town and township. For water works trustee, Early, R., got 305; Hartford, D., 159. Council, Meek, R., 341; Smith, R., 327; Rederus, R., 343; Moore, D., 133; Clark, D., 137; Fasnaught, D., 111.

KILNMEN STRIKE

CRESCENT POTTERY MEN AT TRENTON ASK AN ADVANCE.

Both Sides Firm And 700 Men Will Be Idle if Strike Continues.

Trenton, N. J., April 2.—(Special.)—Two hundred and fifty kilnmen at the Crescent pottery struck this morning, after demanding a 10 per cent increase for placing china. They are paid for this more difficult and particular work only the same rate as for placing regular ware.

If the strike holds out three days 700 hands will be affected.

The strikers are firm and the manufacturers do not appear inclined to yield, so that a prolonged strike would not be surprising.

AG HE WILL BE GOOD.

HAS TAKEN THE OATH OF ALLEGIANCE TO UNCLE SAM.

The Announcement Was Made By Secretary of War Root Today.

Washington, April 2.—(Special.)—Secretary Root announces that Aguirre has taken the oath of allegiance to the United States.

Certificate of Election.

City Clerk Hanley is today engaged in sending out the bonds of the various assessors in Liverpool township. When these are properly filled out they will be filed. The assessors will meet at Lisbon next Monday to receive their supplies and instructions. The clerk will also send certificates of the election of the several successful candidates.

AMONG THE POTTERIES.

Harry Farmer left yesterday afternoon for Salem, where he has accepted a position as packer in the pottery.

Twenty-eight baskets of ware were this morning shipped to Allegheny on the market car attached to the early east bound train.

BROWN'S EXPLOIT PUTS HIM IN JAIL

A Troublesome Colored Man Attempts Burglary, Is Caught and Confesses.

TRIES TO STRANGLE A WOMAN

Seizes Mrs. Dr. Williams By the Throat And Struggles With Her. The Dropping of His Hat Leads to His Arrest—Held for Court.

Dave Brown was at his old tricks again last night, and this time it is probable he will not get off so easy as formerly.

At about 2 o'clock this morning Dave went to the residence of Mr. Dr. Williams on Fifth street and entered the house by means of a kitchen window. The family were upstairs in bed and Brown had no difficulty in roaming about the lower portion of the house without attracting the attention of the family.

He went to the rear of the house and opened two doors, one at the side and one immediately in the rear. This was doubtless done in order to make his exit safe and rapid in case of discovery.

Brown then proceeded upstairs and had just entered Mrs. Williams' room when she awoke. She saw that there was someone in the room, and inquired who was there. The colored boy put his hands over his face and replied that it was Willie, and he was sick.

Mrs. Williams at once arose and went to the person, believing him to be her son. When she reached his side she was seized by the throat and almost strangled to death. The pair struggled to the landing at the top of the stairs, and in her efforts to tear herself loose from the grasp of the negro, Mrs. Williams tore his cap from his head and it fell on the floor and later was found by the police. Brown soon released the woman and fled down the stairs.

Meanwhile the other members of the household had been aroused, and Raymond Williams, another son, made his way across the street and gave the alarm at the residence of Colonel W. C. Watson. He also notified the police. Officers Gill and Auderhelde and Colonel Watson arrived on the scene about the same time and immediately began an investigation.

Mrs. Williams, who had suffered greatly from the shock of her thrilling experience, was made comfortable by Dr. Toot, and Officer Dawson arrived soon afterward to assist the other officers.

It was not long until the cap was found and the officers were positive and all agreed that it was the property of Dave Brown.

The three officers, accompanied by Raymond Williams, repaired to the home of the Browns in West End, and while the officers secreted themselves where they could see what was going on the Williams boy knocked at the door and informed the inmates that Dave was wanted to shine a rig somewhere. Without suspecting anything the door was opened and the officers entered. Mrs. Brown was considerably agitated and at once inquired whose house Dave had broken into this time.

When the party was ready to start for the jail Dave couldn't find his cap, but the police said they would fix that. Withing a very short time after the affair occurred the colored boy was landed in prison.

On at least three other occasions Brown has been connected with identically the same sort of affairs, and it is thought in order to not only learn him a much needed lesson, but to insure the safety and peace of the community, Dave will be given a salty dose.

At 6:30 o'clock last evening, just as the polls were closed at the first precinct of the Fourth ward, Brown and Joseph Cannon had a fight. Cannon was given much the worst of it, and when the charge was made against Dave last night of disor-

MADE GOO GOO EYES

The Charge Against East Liverpool Women Who Were Arrested at Beaver Falls.

Two young women from East Liverpool, O., who registered at one of the hotels in town as Mrs. Petrie and May Miller, were picked up on the street in Beaver Falls, by Chief of Police Strayer, who, after much pleading on the part of the prisoners, allowed them to be released upon promising to leave town at once. The women had been in town for a day or two and had been making "goo goo eyes" at some of the boys in town who part their hair in the middle, until the chief feared that he would lose some of the habitual mashers who amuse themselves on the savenue.

The women were very indignant when placed under arrest and put up a good strong argument, but it would not go, says the Beaver Falls Tribune. They then showed that they had return tickets to East Liverpool and sufficient money to pay car fare to Rochester, and upon promising to leave town were released.

HE IS GONE.

Sharon Man Has Left And No Trace Can Be Found.

Charles Sumbower, general manager of the Henry dry goods store, the largest in Sharon, mysteriously disappeared from his home in that city on March 25, and not a word of his whereabouts is obtainable.

Sumbower is a handsome specimen of manhood and a most successful dry goods man. He was seen on the streets about 10 on the morning of the 15th for the last time. His disappearance is complete and although every effort has been made to locate him, no one has yet succeeded in finding the slightest trace.

Yesterday a private detective arrived in Sharon and began a search for Sumbower. The stranger was extremely secretive and no one knows who he is. J. S. Henry, Jr., of the store where he was employed, went to Pittsburg today in an effort to locate the missing man.

Sumbower left everything in his room in good shape. His wages are yet due him at the latter place.

ROBBED ON A BOAT.

A Beaver Man Alleges That \$1,665 Was Taken From Him.

Parkersburg, W. Va., April 2.—L. B. Engle of Beaver Pa., reported to the police here that he had been assaulted and robbed of \$1,665 by three roustabouts on the steamer Queen City about three miles below here. He stated that he got on the boat at Gallopis to go to Pittsburg. About 8 o'clock yesterday morning three men set upon him and robbed him of all his money, one of the parties knocking him down and the others slitting his pockets with a knife. His coat was taken off and he was told to get out.

He applied, he said, to the captain, but received no redress. An officer was called, but the men whom Engle claimed had robbed him could not be found. Engle's face was scarred and his pockets showed where they had been cut open by the robbers.

EAST END AFFAIRS.

Born, to Mr. and Mrs. Harry Green, of St. George street, a daughter.

City Engineer George will begin the survey of the Supplee land tomorrow.

John Sanor has broken ground for the erection of two six-roomed residences on St. George street.

John Arnold, who has been ill with the grip for the past three months, is slightly improved, but is still unable to leave the house.

A series of meetings at the Second U. P. church will begin Wednesday evening. Rev. Mr. Gibson will conduct the meetings this week and Evangelist Kaylor will take charge next Monday.

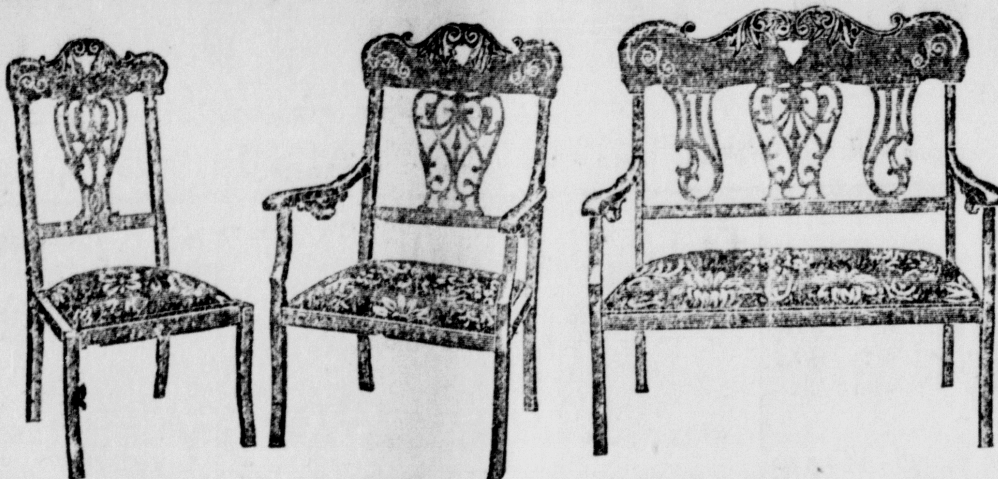

A Dying Girl's Reproaches.

Beaver, Pa., April 2.—At the inquest on the death of Gerlie Stout who shot herself Saturday, a letter to her sweetheart, William Garrett, was read in which she said she preferred to die rather than stay and disgrace him, and reproaches him for leaving him in disgrace.

NEW STEEL STOCKS

Large Dealings in Them in the Stock Market Monday—Some of Features of Market.

New York, April 2.—The prodigious volume of dealings in the United States Steel securities Monday brought the aggregate sales of all stocks on the exchange within measurable distance of the largest dealings on record for a single day. The largest single day's transactions were those on Jan. 7 of this year, when the aggregate sales reached 2,127,503 shares. The total for Monday was 1,858,800 shares, which has only been exceeded by the record day. The large part played by the United States Steel stocks even in such a broad and active market as that of Monday is indicated by the sales of the common and preferred, those of United States Steel amounting to 216,100 and those of United States Steel preferred 163,800 shares, or for both 384,900 shares, which was 23 per cent of the total dealings. It is very evident that the activity of the United States Steel corporation stocks on the exchange with their bulky capitalization of 11,000,000 shares, according to Monday's amended certificate of incorporation, is to constitute a new era in the volume of dealings for individual stocks. Single commission houses Monday did sufficient business in these stocks alone to realize a handsome fortune simply from the brokerage commissions on their operations. One house was credited with selling upwards of 100,000 shares of United States Steel preferred and various other houses between 50,000 and 100,000 shares of either one or the other stocks. The resources required for the support of a stock in which the dealings are on such a scale, that was Monday the confident purchase of all the stock that may be offered at current quotations, staggers the imagination. The offerings which were hurled on the market fairly staggered the price for a period, but they were rallied and moved upward through the avalanche, the common rising 2½ and closing at the top, while the preferred rose an extreme 1¼ and closed within ½ of the top. Many of the opening advances were about wiped out before the final outburst, which carried prices to the highest of the day. A final realization movement carried the most active stocks down again from 1 to 2 points and made the closing very irregular. Rock Island was a feature all day in spite of denials of reported consolidation with the Atchison systems and of other rumors set afloat to account for the movement in the stock. The extreme rise in the stock market was 4½ and its net gain 4 points. St. Paul was strong throughout and became quite buoyant, rising 3½ but falling back 1½ points on the reaction. Union Pacific was very actively dealt in at an extreme rise of 2½ and Manhattan was advanced as much on large dealings. All of the steel stocks were quite volatile, both those included in the merger and the independent stocks. Republic Steel stocks rose an extreme 6¼ for preferred, Sloss, Sheffield preferred 4¾, and Tennessee coal 4¾. Quite a number of dormant stocks were advanced sharply, Pullman rising 6¾, Burlington was quite severely depressed by profit taking, falling at one time 3¼ below Saturday's closing prices, but ending with a net loss of only 1½. Lackawanna, after an early advance, fell 3¾ under Saturday. The tone of the money market was distinctly harder, but not the slightest effect was produced on the speculation.

The bond market was not so active relatively as the stock market, but business was large and the movement of prices irregular. Total sales, par value, \$6,035,000.

U. S. 3s and new 4s declined ¼ per cent on the last call.

LOSS OF TRADE IN CHINA

REPORTS FROM CONSULS ON THE STATE OF COMMERCE.

What the Boxer War Cost Us—Immense Shrinkage in Orders for American Goods.

The department of state has received from China two interesting reports, one from United States Consul Fowler at Chefu on the effect of the Boxer trouble on United States trade, and one from Consul Ragsdale in regard to the export trade from Tientsin. Consul Fowler says:

"The uprising in north China broke out, as is well known, in the month of June, 1900; the press of the entire world has since that time been full of accounts of the events that transpired in this section. They have treated nearly every phase of this subject, and, while we know how our countrymen suffered in north China, I have not seen any statistics published showing the loss involved to merchants in the United States. To show this fairly, it will be necessary to adhere to the Chinese values, where given, instead of the gold values, which are not the same for the periods under review, and I am compelled to include the months of April and May (which were unusually prosperous), as the returns are published by quarters and do not show the trade by months."

Statistics are given showing the enormous increase in importation of American drills, jeans, sheetings, flour and kerosene, prior to the 1st of July. The consul remarks that after June 15 the imports ceased, commercial transactions being absolutely nil. He reports the following decrease at Chefu for the next quarter, ended Sept. 30, 1900: Drills, decreased 43,006 pieces; jeans, 2,560 pieces; sheetings, 112,015 pieces; flour, 139,050 tals, and kerosene, \$52,100 gallons. The report says: "Of course all other lines fell off likewise, and yet Chefu and the interior saw no armed hordes, no military movements and, as compared with the immediate northern ports, was peaceful. As a matter of fact, Chefu was the base for communication with the allies and the world, while Shantung was comparatively quiet, owing entirely to the friendly stand taken by the governor, Yuan Shi Kai. Yet there were more riots and tumult in my district than ever were known before, and the various American mission losses will probably total \$150,000 gold."

"The effects of the Boxer movement were felt much earlier and more seriously in Tientsin than in Chefu. During the month of June Tientsin was practically closed to the world, yet it is odd to notice that oil showed a gain, and especially when it is known that the Boxers boycotted that commodity first of all things foreign. I know of ships loaded with Oregon lumber that reached Taku and were unable to land their cargoes, thus entailing an enormous loss upon the American lumber trade. One American firm paid through this office over \$5,000 gold on demurrages alone on this account, besides losing the sale of the lumber destined for Tientsin."

"This is almost annihilation and at what is usually the busiest time of the year for our trade. The combined decrease at the three ports of Chefu, Tientsin and Newchwang during the quarter ended Sept. 30, 1900, was as follows: Drills decreased 350,583 pieces, jeans 19,590 pieces, sheetings 757,690 pieces, flour 139,050 tals and kerosene oil 2,053,100 gallons."

"This gives a good idea of what a mob in China can do in the way of interfering with trade. The greatest loss is, of course, in cotton piece goods, and this cessation of imports must have been most keenly felt in the southern states. Probably no country in the world suffered as much as did the United States, for the scene of

strife covered practically our field of trade.

"The losses to the cotton trade alone I estimate at over \$3,000,000. For the five months of 1900 before the outbreak our trade had increased (net) \$684,316 over that for the five months of 1899. For the five months from June to October there was a net loss of \$2,865,043."

"The treasury statistics, it should be remembered, do not embrace all of our trade with China, as large quantities of merchandise are sent into China from the United States via Japan, Hongkong, London, etc."

Consul Ragsdale says:

"The export returns give striking evidences how Tientsin and northern China have suffered in consequence of the uprising. The enormous discrepancies between the figures for the present and for last year tell a tale of loss to the producer, as well as to the merchant, that is startling. Nor is the outlook for the year 1901 favorable for large shipments. The country north of Tientsin, where the principal articles of export are produced, is now overrun with ex-Boxers and ex-soldiers who have turned bandits, and it will be exceedingly difficult for merchants to get goods out of or into the interior. Outside of supplies imported for the armies, the same ratio of loss appears as given in the export returns. The cotton and woolen industries have suffered heavily."

"The supplies furnished the United States troops have attracted the notice and envy of all other nationalities, including the merchant as well as the soldier, an advertisement that could not well have been procured in any other manner."

A CULINARY GENIUS.

Cooked Dinner in His Home While at Business in His Office.

The ordinary man is nowhere more out of place than in the kitchen. All rules have their exceptions, however, and a correspondent sends a story of a man who might have led armies perhaps, but was certainly equal to culinary emergencies.

In the absence of his wife and family it became necessary, as he thought, for him to cook his own dinner, and in view of the fact that he was a man of business his presence was also needed down town at his office.

Now, the same body cannot be in two places at once, and this well known consideration would have settled the question for an average man. He would have either spent his forenoon in the kitchen or gone to his office and lunched out. This, however, was a man to whom physical laws do not courtesy even as custom to great kings. The case stood thus:

He was to have a boiled dinner and would have it done to a turn, piping hot and ready to serve at his home coming. The meat, turnips and beets, therefore, which require a longer time, he put on before leaving the house. The potatoes and cabbage, needing less time for cooking, were put on the cover of the pot.

Then he dropped a string through a hole in the edge of the cover, ran it through a loop suspended from the ceiling and thence down to the sink. In the sink hole he firmly stuck a candle, to which, two inches below the top, he tied the string.

Last of all he lighted the candle and went to his business. In two hours, or about half an hour before he was to return, when it was time for the vegetables on the cover to go to their appointed place, the slowly descending flame burned the string, which released the otherwise unsupported edge of the cover, which dropped its burden into the pot and fell back where it belonged.

When the genius reached home, his dinner was ready.—Youth's Companion.

THE KAYLOR MEETINGS.

New Members Being Added Daily to the U. P. Church By the Evangelist's Labors.

The meetings in the United Presbyterian church continue this week with increased interest. New members are being added to the church every day. The meeting last night was the largest, for Monday evening, yet held. While the demands of the world's business kept many away, a well filled church of eager hearers listened to an earnest address on the divine power. The speaker, presenting the purpose for which the exceeding great and precious promises were given, enforced the thought that they must be believed and trusted in or they will be of no avail to those to whom they come. God has provided all things that man needs for his complete salvation, but man must do his part in order to enjoy the blessings. An earnest appeal was then made to do that which would bring the soul into the possession of those blessings.

Several stood up to indicate their desire to live the Christian life, and the service was concluded in the lecture room with the inquirers. Services continue during the week at 2:30 and 8 p. m. There will be a sunrise meeting on Easter morning in the audience room of the church, conducted by Mr. Kaylor.

Don't wait for a purchaser for your house or lot to come around. Put a "for sale" notice in the News Review and a dozen will come.

CAPITAL IS LARGER

The Charter of the New United States Steel Corporation Is Amended.

STOCK IS MADE \$1,100,000,00

Announcement of Directors and Officials—Charles M. Schwab Both Director and President—Gary Chairman of Board—Others Named.

Trenton, N. J., April 2.—The United States steel corporation filed with the secretary of state articles amending its charter and increasing its capital stock to \$1,100,000,000. The state fee for the filing of the papers was \$220,000. The original articles filed some time ago were amended in one particular. This amendment was made for the purpose of taking advantage of an act passed by the recent legislature. Originally the corporation could not mortgage or pledge its real property or any of the stock of any other company except by the affirmative vote of the owners of the two-thirds of the capital stock. Under the amended charter it is necessary to have only the affirmative vote of two-thirds of the stock represented in person or by proxy at any meeting of the corporation. The reason for the change is the fear that the stock will become so scattered that it would be impossible to get two-thirds of the entire stock represented at a meeting.

New York, April 2.—Charles J. Steele gave out a statement last night in which he said the directors of the United States Steel corporation had not been elected yet, but would be in a day or two. The statement follows:

"In accordance with their circular of March 2, 1901, which provided, among other things, that the entire plan of organization and management should be determined by Messrs. J. P. Morgan & Co., they now announce that the management and organization of the United States Steel corporation will be constituted as follows:

"Directors. J. Pierpont Morgan, John D. Rockefeller, Francis H. Peabody, Henry H. Rogers, Charles M. Schwab, Elbert H. Gary, Robert Bacon, Charles Steele, Marshall Field, Norman B. Reed, P. A. B. Widener, William H. Moore, James H. Reed, Henry C. Frick, Daniel G. Reid, E. C. Converse, Percival Roberts, John D. Rockefeller, Jr., Alfred Clifford, William E. Dodge, Nathaniel Thayer, William Edenborn, Abram S. Hewitt and Clement A. Griscom.

"President, Charles M. Schwab; treasurer, Arthur F. Lake; secretary, Richard Trimble; executive committee, E. H. Gary, chairman; Daniel G. Reid, William Edenborn, E. C. Converse, Percival Roberts and Charles Steele; finance committee, Robert Bacon, chairman; Henry H. Rogers, Norman B. Reed and P. A. B. Widener.

Increase in Wages

Lancaster, Pa., April 2.—The Susquehanna Iron and Steel company posted notices in its mills that an advance of 25 cents a ton will be made to puddlers on April 15 and a proportionate increase to the other employees. The increase is voluntary.

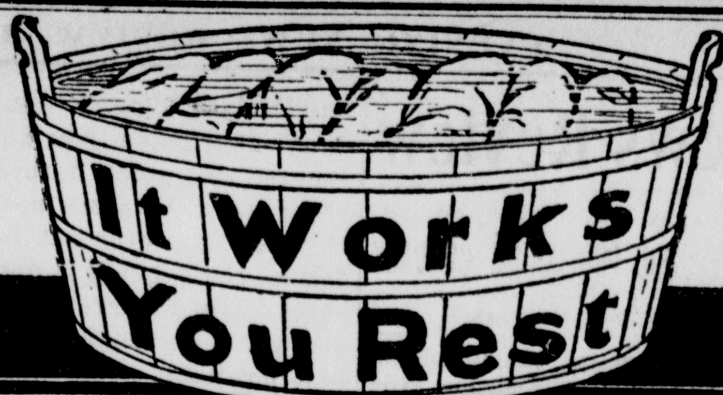

The White Man's Burden

can be named in the single word—*dyspepsia*. It is the one disease, which more than any other, affects the American people. It is common to all classes and all conditions. It makes life miserable. It mars family happiness. It interferes with business and pleasure alike, and it discounts a man's usefulness just as much as it discounts his happiness.

There's a remedy for dyspepsia. Dr. Pierce's Golden Medical Discovery has lifted this burden from the bodies of hundreds of thousands. It cures ninety-eight out of every hundred who give it a fair and faithful trial.

"I used ten bottles of Dr. Pierce's Golden Medical Discovery and several vials of his 'Pleasant Pellets' a year ago this spring, and have had no trouble with indigestion since," writes Mr. W. T. Thompson, of Townsend, Broadwater Co., Montana. "Words fail to tell how thankful I am for the relief, as I had suffered so much and it seemed that the doctors could do me no good. I got down in weight to 125 pounds, and was not able to work at all. Now I weigh nearly 160 and can do a day's work on the farm. I have recommended your medicine to several, and shall always have a good word to say for Dr. Pierce and his medicines."

Free. Dr. Pierce's Medical Adviser is sent free on receipt of stamps to pay expense of mailing only. It contains 1008 pages and over 700 illustrations. Send 21 one-cent stamps for the book in paper covers, or 31 stamps for cloth binding to Dr. R. V. Pierce, Buffalo, N. Y.

The new woman's way to save work in washing, and also save the clothes, is to use Walker's Soap, as follows:

Dip the clothes in lukewarm water, then soap each piece thoroughly, roll in a tight roll, place in a tub and cover with lukewarm water, allowing them to remain half an hour. During this time the soap will do its work. Then wring out, rinse out and hang out to dry.

WALKER'S SOAP

ELECTIONS IN MICHIGAN.

Republican Re-elected Supreme Court Justice—Some Other Results.

Detroit, Mich., April 2.—Robert M. Montgomery, of Grand Rapids, Republican, was re-elected justice of the supreme court by about 40,000 majority, and Frank W. Fletcher, of Alpena, and Henry W. Carey, of Manistee, Republican candidates for regents of the State university, have also been elected by a majority almost as large. The vote cast was light, excepting in those cities where there was a fight on some local issue. There were two constitutional amendments voted on, both of which were defeated. One fixed the compensation of state legislators at \$1,000 per term and mileage, instead of \$3 per day when the legislature is in session, as at present, and the other provided for an increase in the salary of circuit judge in Bay county. The Democrats made a marked gain in Jackson, where their entire city ticket was elected. The city went Republican last year.

In Owosso, S. D. Emery, Prohibitionist, was elected mayor, overcoming a Republican majority last year of 650. He was the only member of that ticket, however, who was successful.

In Detroit, John B. Whelan, Republican, was re-elected police justice, the only municipal officer voted for, by 4,285 majority. Judge Montgomery carried Detroit by over 2,500 majority. Of the 17 school inspectors elected, 11 were Republicans and 6 Democrats.

Women's Missionary Society Met.

New York, April 2.—The fifteenth annual meeting of the Woman's Presbyterian Home Missionary society was held here. The Presbyterian society covers the territory embraced within the New York presbytery and turns over the money which it collects to the woman's home mission board. The total amount collected during the year ending March 31 was \$18,397. The work is largely among colored people and Indians, but special classes of whites are also looked after, such as Mormons. Schools are maintained in Alaska and in Porto Rico.

Sustained Compulsory Vaccination.

Philadelphia, April 2.—The supreme court dismissed the appeal of Charles J. Field, from the decision of the common pleas court of Philadelphia county, which had refused to order Martha L. Robinson, principal of the Keystone grammar school of Philadelphia, to admit the child of Mr. Field as a pupil in the school, the refusal to admit her having been based on the ground that she had not been vaccinated. The court decided that the compulsory vaccination law of 1895 had not been shown to be unconstitutional, and that school directors had full authority to exercise discretion regarding the admission of unvaccinated pupils.

April 1st Without Yellow Fever.

Havana, April 2.—For the first time in the history of Havana, the month of April begins without a single case of yellow fever in the city. Major W. C. Gorgas, chief sanitary officer, is confident that, with the sanitary measures now being enforced and the valuable information gained during the recent investigations of the yellow fever commission, there will be but few cases the coming season.

To Crusade Against Polygamy.

New York, April 2.—The international council of women for Christian and patriotic service, whose chief aim at present is the passage of an anti-polygamy constitutional amendment, met and decided to begin a vigorous crusade. Money was voted for literature, speakers and other necessary expenses. Mrs. Mary Leonard Woodruff, Miss Helen M. Gould, Miss Susan Hayes Ward and Mrs. Alfred E. Meyers are among the officers.

TOLSTOI BANISHED

He is Exiled on Account of Privy Councillor's Assassination—Sent to the Frontier.

St. Petersburg, April 2.—It was rumored several days ago, but generally disbelieved, that Count Leo Tolstoi had been banished from Russia because of the attempted assassination of Privy Councillor Pobedonostzeff, chief procurator of the Holy Synod, who was shot at early in the morning of March 22 while sitting in his study, the attempt being attributed to a desire for revenge growing out of the excommunication of Count Tolstoi.

Owing to the indefiniteness of the rumor it was disregarded by the correspondent here of the Associated Press. Now, however, the correspondent has received a private letter from a usually trustworthy source in Vilna, capital of the government of that name, saying that Count Tolstoi was reported to have passed through Vilna March 26, being escorted to the frontier by two gendarmes.

Shenango People Want Advance.

Youngstown, O., April 2.—Employees of the five blast furnaces at Sharpsville, Pa., posted notices demanding the same scale of wages conceded by the blast furnace owners in the Mahoning valley. A general strike is threatened in the Mahoning valley April 5, unless the demands are granted.

New Charters Issued.

Harrisburg, April 2.—Charters were issued at the state department as follows: The Hellman Couch company, Lycoming county, capital, \$15,000; Pike Water company, Hawley, Wayne county, capital, \$1,200.

"A HELPING HAND"

Is Gladly Extended By an East Liverpool Citizen.

There are many enthusiastic citizens in East Liverpool prepared to tell their experience for the public good. Testimony from such a source is the best of evidence and will prove a "helping hand" to scores of readers. Read the following statement:

Mrs. Edmund Purton, of 233 Ravine street, says: "I had backache, headache and other symptoms of kidney complaint for two years. When the last attack came on I went to the W. & W. pharmacy and got a box of Doan's Kidney Pills. In a very short time I was relieved. My husband, who is a painter, decorator and paper hanger of the firm of Purton & Jackson was seized with a severe attack of kidney complaint. Some years ago he contracted a fever which left his kidneys in bad shape, and ever afterwards he had more or less trouble. When suffering last a gentleman advised him to try Doan's Kidney Pills emphasizing the fact that he had been a sufferer with kidney disease, confined to his bed; his physicians informing him that perhaps they would be able to get him up in two or three weeks; that he used Doan's Kidney Pills and in a day or two he was able to be up and about his business. My husband got a box at once. They were prompt in relieving him. We can heartily recommend Doan's Kidney Pills."

Sold for 50 cents a box by all dealers. Foster-Milburn Co., Buffalo, N. Y., sole agents for the United States. Remember the name—Doan's—and take no other.

THE RESULT IN THE CITY.

The spring election resulted, as the News Review predicted it would, in a general Republican victory. The Democrats put up a strong fight in the First and Fourth wards, but could not muster the necessary votes. The popular verdict is most gratifying, as it guarantees an honest, capable and progressive administration. Since the political fight was made strictly on party lines, it only required Republican vigilance and activity to insure victory. A different result would not have been creditable to the party or to a city where the Republicans are so overwhelmingly in the majority.

THE STAY-AT-HOMES.

Only one Democrat was elected in the entire city and township. There ought to have been no break in the Republican ticket, and there would have been none but for the absolute indifference of many citizens, who, careless of their own interests and of the interests of the public, remained away from the polls. East Liverpool is a now well-governed city. How long can it remain so if a large number of its people neglect their plain duty and refuse to have any voice in saying what men shall govern it? That the whole Democratic ticket was not elected was not the fault of the hundreds of Republicans who stayed at home. The local elections are the really important ones, so far as the welfare, progress and prosperity of a community is concerned. There are enough Republicans in East Liverpool to make a proud record for themselves and their city, but they must shake off their lethargy, cease to help their political opponents by neglecting to vote or to work for their own party candidates, and prove themselves citizens with the city's best interests at heart, or the good luck which attended Republicans yesterday may vanish forever.

NEWSPAPER MEN IN PUBLIC LIFE

If P. C. Knox, of Pittsburg, enters the president's cabinet he will be another ex-newspaper man occupying a prominent public position. John Hay, the secretary of state, is a former journalist, and there are probably a dozen men in congress who were reporters or editors before they were statesmen. One of our contemporaries alludes to this fact as if there were something strange in it, evidently forgetting that newspaper men have been conspicuous in public life from the foundation of the government. Benjamin Franklin, the foremost sage and statesman of his day, was a printer and editor; Hannibal Hamlin edited a country weekly in early life, and the

late Nelson Dingley won the reputation which made him governor and congressman solely through his newspaper work. We are not aware that any ex-editor ever sat in the presidential chair, but it is not many years since one of the great national parties nominated and supported an editor for that position.

Journalists have been sent from this country to some of the chief diplomatic positions abroad.

Instances might be multiplied to prove that the lever of the press, besides its supposed influence in moving the world, is not infrequently potent in lifting him who clings to it. This tendency is observable in many other directions besides politics. The ranks of the professional men—lawyers, doctors, ministers—are full of those who have had newspaper experience, and they find the training they got as reporters of the utmost value. While much is heard of late of journalism as a profession, its influence as a stepping-stone to success in other professions is apt to be overlooked.

There was excitement in the palace of the sultan of Turkey yesterday. His throne wobbled and his highness was so excited that he got up and moved a few steps. It was an earthquake that aroused him. Nothing else could.

East Liverpool Republicans might have made a better showing, but compared with that made by their brethren in the larger cities of the state, they have reason for congratulating themselves.

The Ohio State Journal suggests that Funston be permitted to come here and capture John J. Lentz, then the Filipino insurrection will be a thing of the past.

The college man is not a failure in all lines of business. It has just been ascertained in New York that one of them is a successful burglar.

The Republicans kept together. It is their way. They will do so again next fall.

A LONG STRIKE LIKELY.

No Sign of a Compromise Between Painters And Their Employers.

From present indications there will be no painting done in East Liverpool for some time. As the bosses have refused to confer it is not likely that the men will weaken.

The point upon which the union and their employers cannot agree is, the clause which requires every man on a job to hold and display, when necessary a current working card.

ON HIS WIFE'S COMPLAINT.

John Brick Was Arrested And Fined \$9.60.

Chief Thompson arrested John Brick at Rigot's saloon this morning on a charge of disorderly conduct. He was brought before Mayor Davidson and fined \$9.60. He stands committed to the work house until the fine is paid. The charge was filed by his wife.

HOD CARRIERS' STRIKE.

No Agreement Reached at the Conference Which Was Held Last Night.

The trouble between the hod carriers and the contractors appears as far from settlement as ever.

A conference was held last night, but no agreement reached. The contractors say they would have no objection to giving the hod carriers an increase, but they do not feel disposed to advance the brick wheelers from \$1.75 to \$2.50 per day. This branch has been taken into the union, but they know little or nothing of hod carrying. They have never carried a hod of mortar in their lives, and know no more of the trade than the man in the moon, say the contractors, and should not be met on the same basis as the hands who have served their time.

The bricklayers are idle in consequence of the trouble, but it is likely they will not remain so long. There is a demand for men in their line in both Steubenville and Wheeling, and they state in case the present strike is not settled within a very short time they will go to work down the river.

There is good reason for the belief that a compromise may be effected to day.

SETTLEMENT PROBABLE.

It is Thought the Goodwin Warehouse Girls' Grievances Will Be Adjusted.

The special meeting of the warehouse women's union, held in council chamber last night, was largely attended. It was decided to have the girls at the Goodwin pottery, who have been out on strike for several days, return to work under protest, which they did this morning. They will work until tomorrow evening, when, if the trouble has not been settled, they will again quit work.

The committee appointed by the union to visit the different potteries and secure statistics in regard to the number of girls to be employed, the number of kilns to be drawn each week and the salary, have four potteries yet to visit, and when this has been done another meeting between the committee from the union and the manufacturers will be held. Then, it is thought, the matter will be adjusted to the satisfaction of all concerned.

DROWNED IN THE OHIO.

SAMUEL BARLOW PERISHED AT GALLIPOLIS.

A Young Man Well Known in East Liverpool Whose Parents Live Here.

Word was received in this city last evening that Samuel Barlow had been drowned at Gallipolis during the afternoon.

The young man had been a resident of this city all his life and was about 24 years of age. He was sent to the epileptic institution at Gallipolis three years ago for treatment and has grown steadily worse. Although no particulars are obtainable, the young man was seized with a spell and either fell or jumped into the Ohio river. The remains will be sent to this city this evening or tomorrow morning.

One circumstance connected with the affair is particularly sad. His father, Joseph Barlow, is absent from the city, having gone to Atlantic City last week. The bereaved have the sympathy of the entire community in their affliction.

INJUNCTION CRANTED.

JUDGE FIRESTONE ASKED THE INTERFERENCE OF COURT.

Claimed That Two Men Who Put Down an Oil Well Were About to Ruin It.

Lisbon, April 2.—(Special.)—Judge S. J. Firestone has entered suit asking for an injunction against W. M. Dabney and E. B. Webb, who recently drilled an oil well on his land in Knox township. The well turned out a valuable producer and Judge Firestone claimed it as his property. The parties have had trouble, and it is claimed that they will unless restrained by the court, go to the premises and draw out the casing and tubing, take it away and convert it to their own use. This would render the well valueless. The court has issued a temporary restraining order.

Judge Hole held a brief session of court yesterday afternoon. In the case of John Buchanan against Lawrence W. Crummiere judgment was rendered for \$1,488 due on a promissory note, and a mortgage on 64.32 acres of land in Franklin township will be foreclosed.

In the case of Emmet M. Allman against W. F. Allman et al partition was ordered made. The land is in Washington township and the plaintiff is entitled to a one-quarter interest.

Mrs. Caroline Deemer, of Columbiana, was appointed administrator of the estate of the late J. Frank Deemer and a \$250 bond was given. There will be no appraisement.

Terry Aiken, of Tiffin, and Alice Haverstadt, of Columbiana county; Edward J. Cole and Leonora Young, of East Liverpool; Webster Hart, of East Elizabeth, Pa., and Anna Little, of Bayard, have been granted marriage licenses.

Judge G. F. Robinson opened court this afternoon. The assignment for the day has been continued.

To Dramatize Book of Genesis.

Even the book of Genesis isn't safe from the encroachments of the dramatists these days. Mrs. George Emmons White has risen on the theatrical horizon and has put Abraham and Sarah and Hagar and Ishmael into a play and thereby has gone right down to the root of the matter. Adam and Eve and Cain and Abel cannot hope to avoid much longer the toils of the footlights. Mrs. White has picked out Hagar as a Biblical character who needs dramatic representation. Her sentence by Abraham to go into the wilderness of Beersheeba and die is the incident in her strenuous life which has been selected as the dramatic motive of the drama.

Russia Disarming Finland.

The governor of Finland, General Robrikoff, has ordered that all the rifles belonging to the Finnish reserve shall be delivered up and stored with the proper authorities at St. Petersburg, writes a Copenhagen correspondent. This order has created a sensation, as it is regarded as a cautious step on the part of the Russian authorities to prevent the possibility of a revolt, although the subjugation of the Finnish people is too complete to give cause for such a fear. The Finnish people are alone in their struggle, and alone they know that nothing can be done.

FIGHTING A WILD CAT.

AN ADVENTURE THAT MADE ONE MAN SCARED.

He Is Willing to Go a Long Way to Avoid the Varmints.

"I have read in the papers certain scientific assertions that no wild animal will voluntarily attack or pursue a human being, but that, on the contrary, the fiercest of them, as tradition and the tales of woodsmen classify them, will make haste to escape the possible sight of man, unless, in desperate cases, hunger may urge it to approach him, its most dreaded foe, such cases being extremely rare," said a matter of fact and veracious New York business man.

"If that is so, I had a little experience once with a wild animal that must have been the most desperately hungry beast that ever longed for food. The occurrence was in northwestern Pennsylvania, where one winter I had some business that called me ten miles from the county town to one of the backwoods districts. It was late in the afternoon when I started on my return to the village. The way was over a lonely, narrow, crooked mountain road, bordered by deep woods much of the distance. Toward dusk, as I was rounding a short turn in the road, my horse, which had a good deal of spirit, shied suddenly and sprang forward on a furious run.

"At the same instant an animal with glaring eyes plumped down from somewhere and landed in the sleigh at my feet. It had evidently leaped from a tree at the horse, the quick movements of which nervous animal had defeated that purpose, and the attacking animal had alighted with its fore feet on the robe that lay across my lap. It glared furiously at me, with its face not more than two feet away, as it clung to the robe with its sharp claws, growling fiercely. I had never seen a wildcat, but I knew instantly and instinctively that I had one to deal with here, and it seemed to be a very large and savage one at that. I had no weapon, but fortunately the whip that stood in its socket on the dashboard was loaded at the butt.

"Clinging to the reins with my left hand—the horse was running away—I quickly drew the whip from the socket and struck the wildcat on the head with the heavy butt. That caused the animal to loosen its hold on the robe and drop into the snow at the side of the sleigh, but the agile and furious beast was up in the fraction of a second and with one bound sprang on the back of the sleigh, which had a low body.

"Although the horse was running madly away along the narrow and crooked road, throwing the sleigh from side to side and threatening it constantly with destruction against some rock or stump, I was obliged to drop the reins and leave the result of the runaway to chance, for the wildcat was struggling desperately to gain a foothold in the sleigh and fight me at close quarters. I knew that if the sleigh should happen to come into collision with any obstacle heavy enough to wreck it I would be no match for the catamount, now wrought to the utmost ferocity, fighting it on the slipping snow, even if I were unharmed by the collision, so I strained every nerve to conquer the determined beast while I still possessed the advantage of foothold in the sleigh.

"Once I thought it was all up with me, for as the sleigh was carried abruptly round a short turn in the road by the speeding horse one runner struck a stone or a root, and the sleigh

careened and ran at least 50 feet on the other runner alone. I mechanically threw the weight of my body toward the upper side of the sleigh, all the time raining rapid blows on the head of the wildcat with the butt of the whip, and forced the sleigh down to its balance on both runners again. A few more blows after that, and I was rejoiced to see the determined and tenacious beast first loosen one claw, hang for a second or so by the other, while it tried to seize the top of the back of the sleigh again with its teeth, and then tumble to the road and lie motionless in the snow.

"I dropped back on the seat limp and weak and too much unnerved to make the least effort to obtain control of the runaway, which was still rushing wildly along the uncertain road, made still more uncertain by the gathering darkness. The horse ran at least three miles farther and then began to slow up and at last stopped half way up a long and steep hill from sheer exhaustion. I had by this time recovered sufficiently to take charge of the horse again and drive the rest of the way to the town, which wasn't far, and where I arrived with the horse covered with foam, a sleigh splintered and covered deep with scars and scratches made by the desperate wildcat and myself so badly used up by nervous shock that it was three days before I was able to get about again in anything like good condition. I never heard whether the wildcat was killed by my blows or not, but I have an idea he was. I hope so. Science may be all right in declaring that wild animals will hasten to flee at the very suspicion of man's approach, but if ever I am going anywhere and hear there are wildcats in that direction I'll go around some other way."—New York Press.

Warranted to Cure Smallpox.

I hereby append a recipe which has been used to my knowledge in hundreds of cases. It will prevent or cure the smallpox, though the pittings are filling. When Jenner discovered cowpox in England, the world of science hurled an avalanche of fame upon his head, but when the most scientific school of medicine in the world, that of Paris, published this recipe as a panacea for smallpox it passed unheeded. It is as unfailing as fate and conquers in every instance. It is harmless when taken by a well person. It will cure scarlet fever. Here is the recipe as I have used it to cure smallpox. When learned physicians said the patient must die, it cured: Sulphate of zinc, one grain; foxglove (digitalis), one grain; half a teaspoonful of water. When thoroughly mixed, add four ounces of water. A teaspoonful is a dose. Either disease will disappear in 12 hours. For a child, smaller doses, according to age. If countries would compel their physicians to use this, there would be no need of pesthouses. If you value advice and experience, use this for that terrible disease.—Stockton Herald.

UNDER RIPPER LAW

The Second Class City of Scranton Proceeds According to the New Statute.

VOSBURG GOES OUT OFFICE

A Friend of the Ripper Clause—Filed by Recorder Moir—Republicans Unable to Increase the Number of Members of Councils.

Scranton, Pa., April 2.—Scranton made her transit from the third to the second class of cities and proceeded to do business under the celebrated Muehlbronner act and its more celebrated "ripper" schedule. The reorganization ordinance which is to carry the act into effect was vetoed by Recorder Moir because of alleged inconsistencies and, strictly speaking, the new charter has not yet been accepted, but as there is no choice in the matter but to accept a new ordinance will be passed to meet the views of the recorder. His principal objection to it was that it attempted to join the office of delinquent tax collector to that of treasurer. The recorder is given the right to appoint the collector and he proposes to execute that right.

Select council reorganized by electing C. E. Chittenden, Republican, as chairman over J. J. Costello, Democrat, by a party vote of 11 to 10.

In common council the Democrats started out to organize on a basis of 21 and the Republicans attempted to organize with the expanded membership of 39. The Democrats are in the majority in the smaller council. The expanded council is a tie. The Democrats allege that the 17 additional members provided for by the new charter were not regularly elected. The Democrats succeeded in organizing the council of 21, while the Republicans had to give up their attempt to organize a council of 39 because of their inability to secure a Democrat to join with them in making a quorum of 20. The 17 rejected members will go into court to get possession of their seats. There was some pandemonium during the time that the rival parties were trying to organize separate councils in the one room. No violence, however, ensued.

Recorder Moir caused a sensation by "ripping" out City Solicitor A. A. Vosburg, who was one of the Scrantonians to go down to Harrisburg to work in the interests of the "ripper." George M. Watson, the recorder's private attorney, was named to succeed Mr. Vosburg.

Frank H. Clemons was appointed director of safety; John E. Roche, director of public works, and Fred Fuller, director of charities. Mr. Roche is the Democratic leader of select council and was the Democratic candidate for mayor against Moir two years ago. Every subordinate official and employee was reappointed to a position nearest akin to the one he formerly held. The one exception was John A. Neals, Democratic member of the board of city assessors. Politics, however, did not control his dismissal.

In his annual message, Recorder Moir dwelt at length upon the clause of the Muehlbronner act which permits a city to tax as high as it pleases any corporation doing business within its borders. Heretofore, as a third class city, Scranton could not tax them more than \$100 a year. The recorder advised making them pay liberally toward the city expenses.

CHINA DEFIES RUSSIA.

Plenipotentiaries Ordered Not to Sign Manchurian Treaty.

London, April 2.—"The Chinese emperor, I am officially informed, has instructed the Chinese plenipotentiaries," says the Pekin correspondent of The Daily Mail, "not to sign the Manchurian convention, even in a modified form."

St. Petersburg, April 2.—The new term within which the signature of the Manchurian agreement is demanded expires Wednesday. The confidence that the treaty will be accepted substantially in its present form is apparently unshaken here, though no positive prophecies are made.

HAZING DIDN'T KILL BOOZ.

Findings of the Military Court—Congress Took All Action Necessary.

Washington, April 2.—The findings of the military court of inquiry which investigated the treatment of the late Oscar L. Booz, cadet at West Point, have been made public at the war department. The findings are summed up in a letter written by Secretary Root, which accompanies the report. The letter says:

"The findings of this court of inquiry, which are sustained by the evidence, show that the statements which led to the convening of the court, to the effect that former Cadet Oscar L. Booz came to his death by reason of injuries received by hazing at the academy, were not true. They show that, at the time Cadet Booz was a member of the academy, hazing was prevalent there to a deplorable extent; that the present officers

The Pains of Kidney Disease

Warn You Against the Most Dreadfully Fatal of Disorders. You Can be Cured by Promptly Using Dr. Chase's Kidney-Liver Pills.

Pain is nature's signal whereby she warns man of approaching danger. Few diseases are so dreadfully fatal as disorders of the kidneys and few are accompanied by more severe pains and discomforts.

One of the most common symptoms of kidney disease is the smarting, scalding sensation when passing water which is likely to come very frequently and at inconvenient times. Then there is the dull, heavy aching in the small of the back and down the limbs. When these pains are accompanied by deposits in the urine after it has stood for twenty-four hours you may be sure that you are a victim of kidney disease and should not lose a single day in securing the world's greatest kidney cure—Dr. Chase's Kidney-Liver Pills.

Take one pill at a dose, and in a surprisingly short time you will be far on the road to recovery, for Dr. Chase's Kidney-Liver Pills act directly and promptly on the kidneys, and are certain to prove of great benefit to any one suffering from irregularities of those organs.

See that you get the genuine, with portrait and signature of Dr. A. W. Chase.

Sold in East Liverpool by Charles T. Larkins.

Don't imagine that you are experimenting when you use Dr. Chase's Kidney-Liver Pills. They are almost as well known as his great Recipe Book, have made some of the most surprising cures of kidney disease on record and have come to be considered the only absolute cure for kidney disease.

Mr. J. Curtiss, a well known R. R. engineer, living at 191 Murry street, Binghamton, N. Y., writes:

"Soon after going on the road I began to be troubled by severe pains in my back accompanied by such terrible weakness that I was obliged to stop work for days at a time."

"Hearing of the good results obtained by using Dr. Chase's Kidney-Liver Pills, I gave them a trial. They helped me almost immediately, and now I can truthfully say that I am as well as any man, thanks to Dr. Chase's Kidney-Liver Pills."

GIBBONS TO GO TO ROME.

Will Pay a Visit to the Sovereign Pontiff.

Baltimore, April 2.—Cardinal Gibbons hopes to be able to sail for Europe soon after May 5. All depends upon the date chosen for the ceremony of conferring the red baretta upon Mgr. Martinelli, whose elevation to the cardinalate probably will be announced at the consistory on April 15. The cardinal will sail from New York for Naples, and will go thence to Rome, where he will pay his visit of duty to the Sovereign Pontiff.

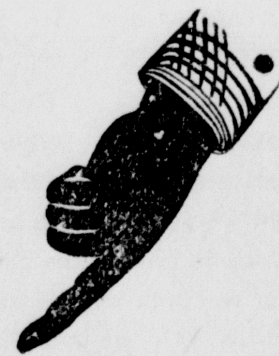

His eminence will then visit Berlin and parts of Holland, and may go still farther. On his way home he will stop to see Cardinal Vaughan in England. During the cardinal's absence the affairs of the archdiocese will be administered by Bishop Alfred L. Curtis.

Mr. Loomis to Leave on Gunboat.

Washington, April 2.—It was decided that in the interest of a quick passage to the United States, Minister Loomis, called to Washington, should be carried by the Scorpion to San Juan, Porto Rico, there to take one of the regular merchant steamers for New York. The officials did not know positively when the minister would leave Venezuela, but at the navigation bureau it was stated that there was no good reason why the Scorpion should not sail yesterday from La Guaira if Mr. Loomis was on hand.

GOODBY, JOE.

A Popular News Review Man Engages in Business on His Own Account.

Josiah T. Herbert, who has been in the employ of the News Review for the past seven years, has retired from the paper and will henceforth be associated with his brother, Sherman T. Herbert, in the real estate business. Mr. Herbert has filled various positions as editor and reporter, and his wide acquaintance with the people of the city has made him one of the most valued employees of the office.

The good wishes of the News Review and of a host of friends will follow him, and all who know him bespeak success in his new field of endeavor, where character and capacity are sure to win. Few men in East Liverpool have more friends than "Joe" Herbert or are more deserving of good fortune.

THE PLAINTIFF WON.

Attachment Suit for Rent Before Justice McLane.

An attachment suit was held in the court of Justice McLane this morning, in which Matilda Cameron, as administrator of the estate of the late John Cameron, sued John Brookes for \$40 claimed due as rent.

The plaintiff resides in Wellsville and her case was conducted by Attorney W. F. Lones. The justice rendered judgment for the plaintiff for the full amount.

MOVING PICTURES.

HOW THE SKETCHES ARE REPRODUCED FOR THE FILMS.

The Amount of Movement That Can Be Crowded Into 50 Seconds.

"A queer thing about moving pictures," said an expert operator in that line to a New Orleans Times-Democrat reporter, "is the illusion they generally produce as to the time they occupy while on the screen. What is known as the 'standard exhibition film' is 50 feet long. It is used almost entirely for comic scenes, trick pictures and other effects that are got up in the studios of the experts who make them a specialty. Every theater goer has seen them, and I will venture the assertion that the average man will declare they take at least three or four minutes in passing before the eye. As a matter of fact the picture is on the screen less than one minute. You can easily figure it out for yourself. The ordinary 50 foot film of the kind to which I refer is put through the reproducing machine at the rate of 16 pictures to the second. Each picture is three-fourths of an inch broad, which makes the 16 measure exactly one foot, edge to edge; in other words, the film travels a foot a second—50 feet, 50 seconds. What gives it the effect of taking up so much more time is the immense lot of action that is usually crowded into the brief period it is in view. Until the moving picture was invented I don't think anybody had the least idea how much could be done in 50 seconds. It seemed hardly time enough to turn around in, yet when the experts began to study its possibilities they found it was ample for hundreds of little pictorial comedies that have since delighted audiences all over the world.

"It is entirely a matter of rehearsal. A subject is selected, generally calling for from three to four people, and every detail of the 'business' or action is carefully worked out in advance. Suppose, for illustration, that a comic burglary is the topic. The business, in skeleton, might run something like this: Old gentleman dozing in parlor; enter burglar; old gentleman awakes; burglar hides; enter policeman, searches the room, collars old gent; they fight and roll on the floor while burglar suddenly emerges and leaps out of the window. That doesn't sound particularly side splitting, but in the hands of intelligent comedians it can be made really very funny. The all essential thing is to crowd it into 50 seconds, and to that end each bit of action is carefully timed and made to fit into each other bit like so many well geared cogwheels. The old gentleman's startled yawn, the burglar's glance around the room and every step, movement and gesture from beginning to end is calculated with the utmost nicety, and at last after dozens of rehearsals the act is attempted before the recording machine. If everybody is lucky, it goes through on sched-

ule time, but the slightest hitch is fatal, and if one occurs the film is spoiled, and they must try all over again. No wonder it seems impossible to future spectators that so much could transpire in 50 seconds.

"But some of the most telling effects in composition pictures," continued the operator, "have been the result of accident and were entirely unpremeditated. That was the case with a film that I had a hand in preparing and that afterward made a tremendous hit and proved to be one of the best sellers ever put on the market. In getting up the picture our principal purpose was to introduce a large and very intelligent bulldog I owned at the time, and we sketched out a simple little scene in which a tramp steals a pie from a kitchen window, is pursued by the dog and is last seen trying to scale the back fence, with the animal hanging to his coat-tails.

"The training of the dog was the main trouble, but I finally taught him to lay hold of anything red, and we sowed a big piece of flannel as a mark to the back of our tramp's coat. Red photographs black, so it couldn't be seen in the pictures, and after a good many rehearsals, the dog learned to dash out at exactly the right moment and nail the marauder, whose cue was then to rush for the fence and consume the remaining time in making an apparently desperate effort to scramble over the top. At last we got everything all ready, gave the word and started the record machine to take the picture.

"Immediately the little comedy began. The tramp appeared, looked around stealthily, saw the pie, hooked it and was having a feast when out sprang the bulldog and seized him by the coat-tails. He thereupon sprinted to the fence and was about to carry out the rest of the programme when, to our consternation, the boards gave way, and he came down bang on top of the dog. The film had about ten seconds to run, and it was occupied in recording one of the liveliest scraps that ever happened. There was no hippodrome about it. Both parties were out for blood. When the fence fell, the bulldog had promptly transferred himself from the tramp's coat-tail to the tramp's calf, while that unfortunate person snatched up a broomstick and tried to pry him loose. They rolled over and put about 50 times as much action and animation in the last ten seconds as had been crowded into the preceding 40. We finally pulled them apart, and it was not until the negative was developed that we realized what a prize we had accidentally secured. That earnest and impromptu wind up has convulsed audiences all over Christendom and made fully as much of a hit in Europe as it did at home."

A CHECK ON PUBLIC ROGUES

Any Citizen May Prosecute an Official Rascal.

Judge Shumway of the superior court of Connecticut has just handed down a decision to bring suit against officers of a town for the recovery of funds alleged to be owed by the officers to the town. The suits against Philip Finnegan, tax collector of Greenwich, and his bondsman were brought in the name of A. A. Marks of Sound Beach. In a demurrer it was asserted that a citizen had no right to bring such an action, but that if a suit were brought it should be instituted by the town in its corporate capacity.

If this position were declared to be sound, the litigation resulting from the recent investigation of town affairs in Greenwich would come to a speedy end, for, as things are in Greenwich, no town meeting would approve continuing it. Attorney Samuel Fessenden appeared for the defendant and argued for the demurrer, while Attorney Morris W. Seymour defended the action instituted by Marks.

There are six suits instituted against Finnegan and others, the allegations in each being practically the same. They are to the effect that, while the property in Greenwich was taxed for \$73,324.58, Finnegan only paid to the town in 1892, when he was collector, the sum of \$61,287.29, and the balance of \$12,000 was lost. It is alleged that the missing sum was collected in additional interest on taxes and in other similar ways, but that the books were kept improperly, and no records were made of the money.

The allegations in the demurrer were to the effect that the defendants are

not answerable only to the town of Greenwich for the faithful performance of their duty, and that, therefore, when the selectmen are by the law the properly appointed officer to sue if a duty is negligently performed by a town officer that officer or his bondsman cannot be made liable to any individual. In defense it was set up that the plaintiff is a taxpayer and property holder of the town and is therefore directly interested in seeing that the laws are properly obeyed and that the town officers perform their duties thoroughly. It was pointed out that if it were not possible for a private citizen to institute such a suit it would be an easy matter for a ring to obtain possession of such offices as the board of selectmen and similar offices, and by mismanagement, which they would refuse to stop, could soon bankrupt the town.

The sustaining of the demurrer would have thrown the whole suit out of court and left absolutely no means of redress. The demurrer was overruled.
